

# Community Assessment

2024

Approved by the Board 07/25/2024

## Standardized Purpose of a Community Needs Assessment

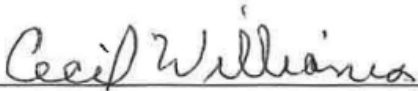

The purpose of a Community Needs Assessment is to identify and prioritize the needs and resources of a defined community or communities. Data is gathered from target populations and results are analyzed in order to understand the causes and conditions of poverty and changing population demographics. The agency's board and leadership use this data to design effective, outcome based programs that will alleviate poverty. The analyzed data is summarized in a report which can be used to provide justification, both to funders and the public, on the need for resources and how resources are being allocated to programs. The report also provides useful data to educate the public and community leaders about issues related to poverty.

## Certification

The Board and Executive Director certifies that the needs assessment is current as of July 25, 2024, and has been received and reviewed by the Board.

## **Community Needs Assessment 2024**

The purpose of this document is to compile relevant information useful in planning a responsive system for serving families throughout the KI BOIS Community Action service area, to determine available resources for families, and ease hindrances in accessibility, give direction to planning and analyze the need for additional services or advocacy activities. Demographic information for the service area in this document was compiled primarily from Data.Census.Gov, and the Community Action Partnership Online Tools. Other information was compiled by conducting a key informant survey, canvassing local agencies, and general research.

### **Overview**

#### **The Promise of Community Action**

Community Action changes people's lives, embodies the spirit of hope, improves communities, and makes America a better place to live. We care about the entire community, and we are dedicated to helping people help themselves and each other.

#### **Agency Overview**

KI BOIS Community Action Foundation, Inc. is a private, non-profit corporation (501(c)3 status) organized in 1968 to eliminate the causes of poverty and improve the quality of life for persons residing in Haskell, Latimer, and LeFlore Counties. At a later date, Pittsburg County was added to the base service area. On January 1, 2011, KI BOIS Community Action began providing Community Action services in Sequoyah County. On February 1, 2018, the Agency began providing Community Action services in Muskogee County. These two counties are now considered to be part of the base service area for the Agency.

KI BOIS Community Action is administered by an eighteen (18) member board of directors, an executive director, associate director/chief financial officer, associate director/chief operating officer, program directors and coordinators.

#### **Agency Mission**

KI BOIS Community Action Foundation, Incorporated is a community-based organization dedicated to eliminating the causes of poverty and bettering the economic, mental, physical and social well-being of all people, most importantly the disadvantaged, by utilizing effective coordination and administration of available resources and information.

#### **Agency Community**

#### **Geographic Information**

KI BOIS Community Action Foundation serves six predominately rural counties in southeastern Oklahoma, Haskell, Latimer, LeFlore, Muskogee, Pittsburg and Sequoyah. This service area covers 5,677.97 square miles with a total population of 219,615. This is a reduction of 15,910 people since 2021. The population density for this area, estimated at 39 persons per square mile, is less than the state average of 58 and far less than the national average population density of 94 persons per square mile.

Latimer County has the lowest population density at 13 and Muskogee County has the highest at 82.<sup>1</sup> The six largest cities are Muskogee (Muskogee County), Poteau (LeFlore County), McAlester (Pittsburg County), Stigler (Haskell County), Wilburton (Latimer County), and Sallisaw (Sequoyah County).

**Figure 1 Geographic Information - Square Miles<sup>2</sup>**

Haskell County is served by several major state highways as well the Oklahoma Turnpike system. The county was named for Charles N. Haskell, the first governor of Oklahoma. Three colleges located within 40 miles of Stigler make it an ideal place to expand a business. The local career technology center is available to work directly with employers. Stigler is home to the county’s only hospital<sup>2</sup>

Wilburton, the Latimer County seat, is the home of industry as well as Eastern Oklahoma State College, begun in 1908 as the Oklahoma School of Mines. Latimer County has five reservoirs and is rich in minerals as well as forests, ranch land, and recreational opportunities.<sup>1</sup>

For LeFlore County, within its borders there is one hospital, seven libraries, a four-year college, three vocational schools, five newspapers, a veteran's center, and numerous clinics. Manufacturing produces such items as refrigerator parts, instrument panels, crackers, and cattle feed. Carl Albert State College offers courses to more than 2,400 full- and part-time students annually.<sup>1</sup>

McAlester, located in Pittsburg County, is a regional center for commerce. The area has a diversified economy with a range of manufacturing businesses, excellent schools, and a positive business atmosphere. Major employers include the McAlester Army Ammunition Plant and the Oklahoma State Penitentiary.<sup>1</sup>

The City of Muskogee is the county seat of Muskogee County. The county and city were named for the Muscogee (Creek) Nation. The Eastern Oklahoma VA Health Care System is located in the City of Muskogee. Muskogee County is part of the Muskogee, OK Micropolitan Statistical Area, which is included in the Tulsa-Muskogee-Bartlesville Combined Statistical Area. I-40 runs through the southern half of the county.<sup>1</sup>

Sequoyah County is located in Eastern Oklahoma and is included in the Ft. Smith, Arkansas metropolitan statistical area. Sequoyah County was named after Sequoyah, who created the Cherokee syllabary. Sallisaw, located on I-40, is the county seat and is home to the county's only hospital and has a satellite campus of Carl Albert State College.<sup>1</sup>

<sup>1</sup> Information retrieved from *US Census Bureau, American Community Survey. 2018-22.*

<sup>2</sup> Information taken from the general profiles of communities and counties located on the Oklahoma Department of Commerce website.

### Urban and Rural Population<sup>3</sup>

Urban areas are identified using population density, count, and size thresholds. Urban areas also include territory with a high degree of impervious surface (development). Rural areas are all areas that are not urban. Of the report area’s 218,527 population (using 2020 Decennial Census), 72,490 or 33.17% of the population is classified urban while 146,037 or 66.83% is rural.

**Figure 1 Geographic – Urban and Rural<sup>2</sup>**

Report Area	Total Population	Urban Population	Rural Population	Urban Population, Percent	Rural Population, Percent
KI BOIS CAF CAA Service Area	218527	72490	146037	33.17%	66.83%
Haskell County, OK	11561	0	11561	0%	100%
Latimer County, OK	9444	0	9444	0%	100%
Le Flore County, OK	48129	9637	38492	20.02%	79.98%
Muskogee County, OK	66339	35798	30541	53.96%	46.04%
Pittsburg County, OK	43773	19542	24231	44.64%	55.36%
Sequoyah County, OK	39281	7513	31768	19.13%	80.87%
Oklahoma	3,959,353	2,558,611	1,400,742	64.62%	35.38%
United States	331,449,281	265,149,027	66,300,254	80.0%	20.0%

### Political Information

The six counties served by KI BOIS Community Action fall under Congressional District #2. This same area is covered by Oklahoma House of Representatives districts #1, 2, 3, 13, 14, 15, 16, 17, and 18; Oklahoma Senate districts #4, 5, 7, 8, and 9.

### Data Methodology

The base assessment staff includes the Executive Director, Director of Planning and Development, Fiscal Officer, Associate Director/Chief Operating Officer, and Nationally Certified ROMA Implementer (NCRI). Other staff or professionals are brought in at appropriate intervals during the process. The assessment process was started by identifying persons to review the survey instrument and making necessary changes or programmatic additions.

<sup>3</sup> Information retrieved from US Census Bureau, [Decennial Census](#), 2020.

## **Timeline**

KI BOIS Community Action conducts a full community assessment every three years. Surveys are collected and compiled every year. Surveys were collected from March 19, 2024 to July 17, 2024.

Surveys were compiled, internal and external data collected and reviewed. Information was used during the strategic planning process and presented at the July 25, 2024 KI BOIS Community Action Board of Directors meeting.

## **Data Sources**

Data sources include, but are not limited to, surveys collected in program service areas, information collected from Community Needs Assessment Tool (Community Action Partnership website), county coalition meetings, Census data, other agencies' assessments, trainings, Agency data, and a host of other sources. Other information was collected from the Point in Time (PiT) Count and the Housing Inventory Chart (HIC). The needs assessment survey was distributed to the public through five different mediums: paper, e-mail, web-link, Twitter, and Facebook. Responses were received via all five distribution methods. The PiT Count surveys the community to determine the number of sheltered homeless, unsheltered homeless, and those imminently at-risk of homelessness and their subpopulation data. The HIC details the number and type of beds available in the homeless service system. A full list of footnoted sources may be found at the end of the assessment just prior to the appendices.

## **Sample Size**

The sample size was determined by using the Data.Census.Gov and Survey Monkey. Data.Census.Gov was used to identify the total population size of a sector in each county of the service area. Then the total sector number from Data.Census.Gov was entered into the Survey Monkey Sample Size Calculator. The parameters included a 90% confidence level and no higher than a 10% margin of error. The following are the sample sizes as determined by the above procedure.

Families	68
Faith Based	50
Community Based	45
Public	Unknown
Private	Unknown
Education	14

## **Sectors**

Surveys were provided to all key sectors, including persons with low-incomes, community based organizations, faith-based organizations, private sector, public sector, and educational institutions.

## **Surveys Received**

There was a total of 344 surveys received during the time frame noted above. Of those surveys, 73.26% were completed by females, 25% were completed by males, .29% completed by trans males, and .29% preferred not to answer. As a barometer to measure that the survey respondents are representative the service area, a comparison is done between the service area and the survey racial breakdowns. In years past, the breakdown has generally been within 1-2% or less for each category. In 2024, there is more discrepancy. The White category has a lower percentage of surveys completed. Native American and Black had higher percentages complete the survey. There is a discrepancy between racial categories in the Census and the CAPTAIN survey tool. The Census data allows for Mixed Race and Other. The CAPTAIN survey tool only allows for Other. The racial and ethnic breakdown is noted below.

Race	Service Area %	Survey %	Survey Number
White	64.87%	61.92%	213
Native American/ Alaska Native	14.65%	23.26%	80
Black/African American	4.3%	8.72%	30
Asian	0.7%	0.87%	3
Native Hawaiian/Other Pacific	0.06%	0.29%	1
Mixed Race	13.24%		
Other	2.19%	3.49%	12
Did Not Answer		1.45%	5

Ethnicity	Service Area %	Survey %	Survey Number
Hispanic	6.37%	4.94%	17
Non-Hispanic	93.63%	91.57%	315

Survey Responder Categories	Survey %	Survey Number
Client of Agency	39.83%	137
Agency Board Member	1.74%	6
Agency Volunteer	2.03%	7
Representative of an Educational Institution	1.45%	5
Representative of a Government Entity	5.23%	18
Representative of a Private Organization	2.03%	7
Representative of a Faith-based Organization	2.33%	8
Representative of a Community Based Organization	14.83%	51
General Public	27.03%	93

Required Sectors	Sample Size	Responses
Families	68	136
Faith Based	50	8
Community Based	45	157
Education	14	5
Private	Unknown	7
Public	Unknown	18

### Additional Information

For more detailed in-depth information, please consult the companion assessment entitled Community Health Needs Assessment located on the Resources tab of the KI BOIS Community Action website.<sup>4</sup> Also located under the Resources tab are two additional documents that may be of assistance: the Services Directory and Resource Guide. The Services Directory details the programs operated by KI BOIS Community Action. The Resource Guide details a wide array of resources provided by other agencies in the communities served by KI BOIS Community Action.

<sup>4</sup> KI BOIS Community Action webpage - [Home | KIBOIS-LIVE](#)

## **Key Findings**

The key findings for the Agency's prioritized needs are not surprising and have been creating poverty issues for years. The most relevant causes of poverty in the service area are lack of industry and living wage jobs. Lack of education and/or quality education is also a prominent cause of poverty.

The causes above contribute to conditions such as employed but not paid a living wage, having unemployment benefits end with no reasonable prospect of job on the horizon, and lack of a marketable skill set.

Rural communities tend to have aging housing stock. Not all landlords are committed to maintaining their rental properties to appropriate standards. Decent affordable houses to rent or buy are difficult to find. Rural communities also lack facilities and/or activities for youth. Youth engagement is defined as "meaningful participation and sustained involvement of a young person in an activity, with a focus outside of him or herself" (Crooks et al., 2009). Without organized activities for youth to keep them busy and active, the potential for risky behavior and negative consequences rise; the youth crime rate may rise, teenage pregnancies may increase, and the high school dropout rate may increase.

## **Prioritized Needs**

The top 3 prioritized needs to be addressed by the Agency are 1) Decent Affordable Houses to Rent, 2) Higher Paying Jobs/Jobs with Benefits, and 3) Utility Assistance.

The top programs to continue, according to survey respondents, are as follows:

1. Transportation
2. Housing
3. Emergency Services
4. Elder Services
5. Substance Abuse Services
6. Income Tax Assistance
7. Prescription Assistance
8. Head Start
9. Rental Assistance (written in Other)

## **Agency Programs and Services**

### **Child and Adult Care Food Program**

The Child and Adult Care Food Program (CACFP) is a federal food program that provides money for serving nutritious meals to children enrolled in licensed family daycare homes.

This program is funded by the U.S. Department of Agriculture (USDA) and administered at the state level by the State Department of Education, who funds organizations like KI BOIS Community Action to administer the program at the local level.

The program benefits to enrolled homes are as follows: monthly checks to cover your food costs for feeding the children in your care, you will be reimbursed for the meals your own children eat if your income is less than 185% of the poverty level, you will receive training that will improve your skills and increase your knowledge of nutrition, food preparation, and record keeping, and each child in your home will receive nutritious, tasty meals.

The Child and Adult Care Food Program serves the following counties: Adair, Bryan, Cherokee, Coal, Craig, Delaware, Haskell, Hughes, Latimer, LeFlore, Mayes, McIntosh, Muskogee, Nowata, Ottawa, Pittsburg, Rogers, Sequoyah, Tulsa and Wagoner.

### **Developmental Disabilities Programs**

The Developmental Disabilities Program mission is to provide services to individuals with developmental disabilities in the least restrictive environment. Our goal is to provide supports so that the individual served can work toward living independently in the community.

#### **Adult Day Care**

KI BOIS Community Action is currently operating Adult Daycares in Haskell, LeFlore and Pittsburg Counties. This provides the recipient with help in the retention or improvement of self-help and socialization skills. It's also an opportunity to interact with peers. Service is provided in a non-residential setting separate from the home or facility where the recipient resides. Services are furnished 4 or more hours per day, five days per week to recipients over 18-years of age who require ongoing support and supervision when outside their home and who do not pose a threat to others.

#### **Group Home**

KI BOIS Community Action currently operates seven group homes serving 34 individuals with developmental disabilities. The group home program provides residential placements for individuals meeting the criteria set forth by the Department of Human Services and the Developmental Disabilities Services Division. Group homes are located in McAlester, Stigler, Poteau and Wilburton.

#### **Supported Employment**

KI BOIS Operation Jobs is a program designed to assist individuals with developmental disabilities in locating a job in the community. The individual is assigned a job coach who will train and assist the individual on how to do the job. The job coach will gradually phase out. If the individual has a change in job duties, the job coach will assist with training and gradually phase out again.

## **Supported Living**

Supported Living provides assistance to individuals who have been mandated by the Federal Court to move from an institutional setting to their own home in the community. Various community programs are available to assist these individuals.

## **Habilitation Training Specialist**

This program is designed to assist developmentally disabled individuals who primarily reside in the community. To be eligible for the program, a person must meet the criteria for the Department of Human Services Home and Community Based Waivered Services.

## **KI BOIS Community Care**

### **ADvantage Case Management**

KI BOIS Community Care offers certified case management for the *ADvantage* program. To be eligible, you must meet nursing home level of care and meet certain income guidelines. The goal of the KI BOIS Community Care Program is to help consumers stay healthy, safe and independent in their own homes and communities. KI BOIS Community Care is a certified Advantage Case Management Provider serving 22 counties in eastern and southeastern Oklahoma.

The Department of Human Services determines eligibility for the Advantage Program, but KI BOIS Community Care Case Managers can assist by walking the consumer through the process. When eligibility is determined, the consumer can receive assistance with personal care, homemaking activities, laundry, errands, equipment and supply needs, and environmental modifications (wheelchair ramps, widening of doors, etc.), if needed.

KI BOIS Community Care currently serves the following counties: Adair, Atoka, Bryan, Cherokee, Choctaw, Coal, Haskell, Hughes, Johnston, Latimer, LeFlore, Lincoln, Mayes, Marshall, McCurtain, McIntosh, Murray, Muskogee, Okfuskee, Okmulgee, Pittsburg, Pontotoc, Pottawatomie, Pushmataha, Seminole, Sequoyah, Tulsa, and Wagoner.

### **Living Choice**

The Oklahoma Living Choice Project offers people with a long term illness or disability the freedom that comes with living at home. Living Choice helps eligible persons move out of a nursing home and back into the community.

If you live in a nursing home and qualify for SoonerCare, Living Choice may be able to help you. This project gives Oklahomans more options to manage health care needs and adds more balance to the state's long-term care system. This program is specifically designed for older people, those with physical disabilities and people with intellectual disabilities

## **Rx for Oklahoma**

Rx for Oklahoma helps individuals apply to pharmaceutical companies through their patient assistance programs. These programs offer help with maintenance medications. Anyone may apply since there is no age limit and if you meet all the guidelines there is little or no fee for the medication. The program is geared toward those who are uninsured, low-income or underinsured (those that may have insurance, but no prescription coverage). KI BOIS Community Action does not provide cash assistance for prescriptions.

Rx for Oklahoma can help provide better healthcare, improved medication compliance and fewer medical complications for those that qualify.

Oklahoma residents, regardless of age, who are uninsured or underinsured, are encouraged to apply. Medicare Part D and Medicaid beneficiaries with unique circumstances may qualify. Rx for Oklahoma is *not* an emergency service. It will take approximately four to six weeks from application to receive your medication, if you qualify. The amount of time it takes to receive prescriptions varies from company to company.

Those wishing to apply for the program need to bring the following:

- Proof of age
- Residential Address
- Gross annual household income
- Complete list of medications and dosages you are taking and physician information
- Insurance coverage (if applicable)

## **Housing Programs**

### **Weatherization**

This is an energy conservation program that addresses measures to help eligible families to reduce their heating and cooling costs. This program now uses the National Energy Audit Computer Program (NEAt) to determine what measures need to be done to the home. These measures include but are not limited to attic, wall and floor insulation, reducing air leakage, base load measures and heating repairs.

Potential health and safety issues will be checked prior to any work being done on the home. These issues must be corrected before KI BOIS Community Action can weatherize the home. The program is not a storm window and door program. These items will not be put on a house, unless it is recommended by the NEAt program.

Total household gross income may not be more than 200% of the Federal Poverty Guidelines.

### **Housing Information and Referral Services**

KI BOIS Community Action offices in each county assist households with information and referral on other available housing services.

## **Homeless Programs/Emergency Services**

### **Emergency Services**

This program can assist homeless or at-risk families with past due utility payments, past due rent, security deposits, utility deposits, first month's rent and food. There are specific guidelines for some services.

### **The Salvation Army**

The Haskell County office in Stigler, the Latimer County office in Wilburton, and the Pittsburg County office in McAlester serve as the Salvation Army Service Unit for their respective county. They offer one time per year assistance with up to one month's portion of a bill.

### **Food Banks**

KI BOIS Community Action operates food banks in three counties.

LeFlore County	108 West Witte	Poteau	918.649.3999
Latimer County	300 SW 9th	Wilburton	918.465.3381
Haskell County	1007 East Main	Stigler	918.967.9017

### **Emergency Solutions Grant**

The Emergency Solutions Grant Program provides financial assistance and services to prevent individuals and families from becoming homeless and help those who are experiencing homelessness to be quickly re-housed and stabilized. The funds for this program are intended to target individuals and families who would be homeless *but* for this assistance and whose income is below 30% of the Area Median Income. Depending on funding, prevention services may not be available.

### **Permanent Supportive Rapid Rehousing Program (PSHP)**

PS-RRH helps women with a disability coming out of a shelter to find permanent, stable housing and provides long term comprehensive case management and support. For qualifying participants, PS-RRH provides time limited financial assistance with rental payments to the landlord.

### **Supportive Services for Veteran Families (SSVF)**

SSVF is a housing first program that provides case management services to qualifying veterans. Eligible participants must be a member of a Veteran family, must be "very low income" (less than 50% of area median income) and must be homeless or at imminent risk of becoming homeless.

SSVF aims to provide supportive services to improve the Veteran family's housing stability through case management which includes linkage or referral to local community services. These services can include health care, daily living, financial planning, transportation, legal, childcare and housing counseling.

If a participant qualifies, SSVF may be able to provide time-limited payments to third parties if these payments help Veteran families stay in or acquire permanent housing on a sustainable basis, ie. Landlords, utility companies, moving companies and licensed childcare providers.

Our offices are located throughout the 24 county service area: Adair, Atoka, Bryan, Carter, Cherokee, Choctaw, Coal, Haskell, Hughes, Johnston, Latimer, LeFlore, Love, Marshall, McCurtain, McIntosh, Murray, Muskogee, Okfuskee, Okmulgee, Pittsburg, Pontotoc, Pushmataha, and Sequoyah.

**NO VETERAN WILL BE TURNED AWAY.** If a veteran does not qualify for the program, they will be linked with other services and resources.

### **SSVF – Shallow Subsidy**

The Supportive Services for Veteran Families (SSVF) Shallow Subsidy service provides rental assistance to very low-income and extremely low-income Veteran households who are enrolled in SSVF's Rapid Rehousing or Homeless Prevention projects. Veterans will have already received rental assistance via traditional SSVF projects (Rapid Rehousing or Homeless Prevention) but remain rent burdened and do not have access to public funded subsidized housing.

Under the Shallow Subsidy service, SSVF grantees provide rental assistance payments to landlords on behalf of the Veteran household. The rental assistance is at a fixed rate every month, regardless of changes in the Veteran household's income or monthly rent amount. SSVF will offer light case management services to the Veteran Families enrolled.

For KI BOIS SSVF Shallow Subsidy service, the maximum amount of rental subsidy that can be provided on behalf of the Veteran household is up to 35% of the local rent reasonableness. The Veteran will be responsible for the remaining portion.

## **Volunteer Programs**

### **Foster Grandparent Program**

Foster Grandparents, age 55 and above, help children with special and exceptional needs: educational, social, emotional and/or physical. Foster Grandparents assist in local organizations -- including faith-based groups, Head Start Centers, schools, and other youth facilities. They help children learn to read, provide one-on-one tutoring, and guide children at a critical time in their lives. Foster Grandparents provide a good role model for children, are good listeners, give children consistent love and positive reinforcement, talk with their special child, walk with their special child, accompany children on field trips and special events, read stories, assist with craft activities, help a child develop self-esteem and self-confidence, and eat meals with their children. Foster Grandparents act just like grandparents. They provide wisdom, experience and tranquil love. They may often fill a void sometimes created in today's fast and furious world. Working 15-40 hours a week, these unique people do not displace other workers.

Foster Grandparents receive a modest, tax-free stipend which does not affect their eligibility for other benefit programs such as Social Security, a Bridge Card, etc. They also receive a meal on the days they serve as a Foster Grandparent, a yearly physical exam, monthly training, 40 hours of orientation and are reimbursed for travel. Volunteers driving their own vehicles receive excess auto insurance coverage and accident and personal liability insurance. Foster Grandparents also receive recognition for their special service to children throughout the year.

Foster Grandparents, along with the Senior Companion Program and Retired and Senior Volunteer Program, is a National Senior Service Corp Program.

### **Retired Senior Volunteer Program**

The Retired Senior Volunteer Program is an organization of seniors 55 years and older who donate some of their time each month to do volunteer work in their community.

RSVP offers a full range of volunteer opportunities with local and national organizations. With RSVP, volunteers choose how and where they want to serve. Volunteers choose the amount of time they want to give and whether they want to draw on their skills or develop new ones. In short,

volunteers find the opportunity that's right for them.

With RSVP, volunteers receive pre-service orientation, training from the organization where they serve and supplemental insurance while on duty. When people volunteer, they are not just helping others, they are helping themselves. Volunteering leads to new discoveries and new friends. Plus, studies show that volunteering helps volunteers to live longer and promotes a positive outlook on life.

### **KI BOIS Area Transit System**

KI BOIS Area Transit System (KATS) was started in 1983 to meet the growing transit needs of rural Oklahomans. KATS is a public transit system offering services to all individuals without regard to income. KATS has a fleet of over 230 vehicles. These include vehicles that are accessible to the disabled and meet ADA requirements. The KATS service area includes Haskell, Latimer, LeFlore, Pittsburg, Adair, Cherokee, Sequoyah, Okmulgee, McIntosh, Hughes, Okfuskee, and Wagoner counties. Trips originate in these counties but, with certain services, the destination may be in a county not listed.

Transit services include transportation to jobs, social services, education, schools, shopping, medical, and recreation.

KATS is a proud partner with Cherokee Nation, Muscogee (Creek) Nation, INCOG, SoonerRide (ModiviCare) Oklahoma Department of Human Services, Oklahoma Department of Transportation, Veterans Ride Connect, EODD and KEDDO (Area Aging Services)

### **Women's Crisis Services**

The Mission of KI BOIS Community Action Foundation Domestic Violence Programs is to end domestic violence and sexual assault through emergency shelter services, education, advocacy, and prevention programs which empower men, women and their children to live free of fear and harm within their own families and the community.

The primary purpose of the KI BOIS Community Action Women's Shelters (Stigler and McAlester) is to provide a safe house for women and children that have suffered or are threatened by physical violence. KI BOIS Community Action operates two 24 hour crisis lines to provide support and peer counseling to any caller who is in need of services.

These programs provide immediate response to adult abuse victims and their children by providing safe shelter and transportation to shelter. By providing education to families and the community about the issues of domestic violence and sexual assault, it is our hope to break the cycle of violence.

The shelters are available to help victims whether or not they seek residential shelter. Non-resident groups and advocacy services are also provided to women and their children in the community who are victims of domestic violence but do not need immediate shelter services.

Both shelters are certified programs through the Oklahoma Office of the Attorney General. All services are offered free of charge.

## **Volunteer Income Tax Assistance**

The Volunteer Income Tax Assistance (VITA) program has provided free tax preparation services through local community coalitions for households since the early 1970s to ensure the distribution of EITC (Earned Income Tax Credit). IRS certified volunteers are trained to prepare basic tax returns and work to make sure that all tax credits the taxpayer qualifies for are taken, including EITC. And, because volunteers are trained and certified by the IRS, the taxpayer knows that taxes are filed quickly, correctly, confidentially, and securely.

Through the Volunteer Income Tax Assistance (VITA) program, volunteers and staff prepare basic Income tax returns and transmit them electronically using software provided by the Internal Revenue Service. KI BOIS Community Action offers this service free of charge to citizens in the Stigler, Wilburton, McAlester and Poteau offices.

To qualify for this free service the total household income must be below \$57,000.00 (2024). KI BOIS **WILL NOT** prepare the following returns:

- Rental Properties
- Schedule D (Capital Gains & Losses; Stocks)
- Farms
- Moving Expenses
- Minor's Investment Income
- Installment Sales Contracts
- Trusts and Partnerships
- Business Use of Home
- Employee Business Expenses
- Cancellation of Debt

Free e-filing service may take 7-10 days to receive the refund. But remember it's free and can save on average \$300 in preparer's fees.

## **The Healthy Living Program (Formerly the HALT Project)**

The Tobacco Settlement Endowment Trust (TSET) Healthy Living Program for Haskell County, formerly known as the HALT Project, is a program to help local residents "eat better, move more and be tobacco free."

The five-year community grant program aims to prevent and reduce tobacco use and obesity by working with key public and private sectors within local communities. TSET awarded a Healthy Living grant to KI BOIS Community Action to work in partnership schools, businesses, congregations and governments in Haskell County.

The TSET Healthy Living program takes an integrated approach to addressing Oklahoma's leading causes of death – cancer and cardiovascular disease – by preventing and reducing tobacco use and obesity.

The Healthy Living program builds on lessons learned from more than a decade of TSET community-based grants. The program uses data gathered within the local area and well recognized best practices to establish strategies that fit the needs of the community.

**TSET Targeted Achievement Grant (TAG) – Southeast**

This grant was awarded in 2022 with the goal of reducing tobacco use and obesity in southeast Oklahoma. TAG-Southeast builds on a portion of work previously conducted by the Healthy Living Program in southeast Oklahoma. This program operates in Pittsburg County.

**Work Ready Oklahoma (WRO) – Poteau**

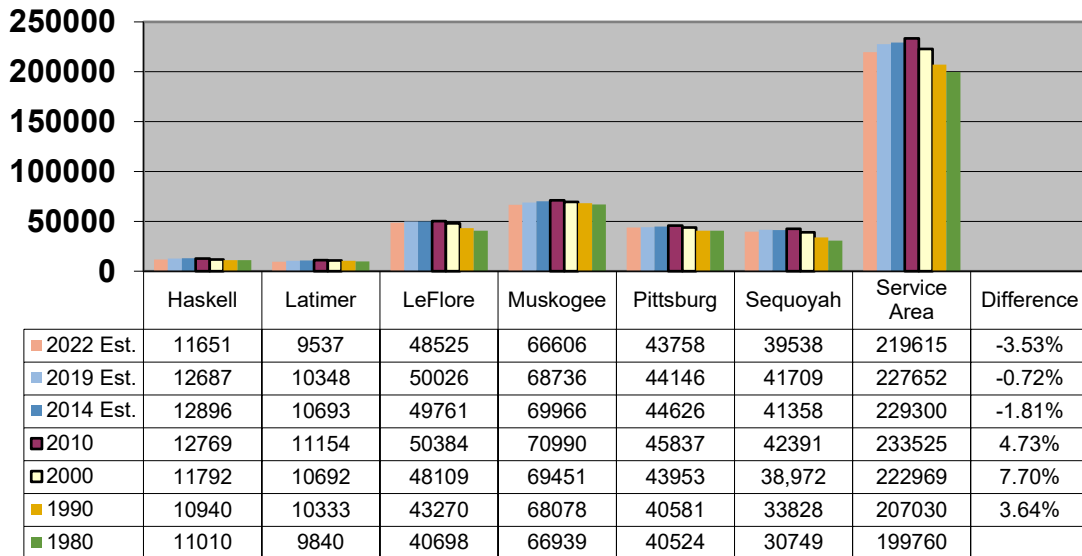

Powered by Oklahoma Human Services, Work Ready Oklahoma focuses on empowering Oklahomans towards self-sufficiency through targeted job preparedness and skill building workshops. Participants start their journey at the WRO center, receiving foundational job training and skill development. After completing this initial phase, WRO staff help connect job seekers to CareerTech and other educational institutions, where they can pursue further specialized training that aligns with their career aspirations. A dedicated job coach will guide each participant through personalized goal-setting and job matching, ensuring a path to stable and fulfilling careers. This program is central to the mission of enhancing the workforce and reducing reliance on government assistance by promoting independence with robust, community-based support.

## Community Demographics \*

### General Population Demographic Profile

The total population of this area is 219,615 based on the 2018-22 Census estimates. This is a decrease of 5.96% over the 2010 Census and 1.50% over the 2000 Census. All counties showed a decline in population. This overall change amounts to a 3.53% decrease for the service area since the 2019 estimates.<sup>5</sup>

United States	30.1	43.8

### General Population Demographic Profile by Age and Gender

Children under the age of 5 make up 6.13% of the population. Those ages 5-17 make up 17.56%. The under 5 and 5-17 population has remained fairly steady over the last eleven years. Persons over the age of 65 are 18.36%, a slight increase of 1.06% since 2021, and 2.42% higher than the State average. <sup>2</sup> The total service area population shows a 6.43% decrease from 2010. In the 2021 Assessment, the decrease was only 2.53%. The State of Oklahoma had a 5.54% increase since 2010. Every county in the service

area had a decrease, ranging from -4.5% to -15.33%. This decrease warrants attention, as a declining population typically indicates rural to urban migration and/or a natural decrease where more people are dying than babies being born. Both scenarios can have substantial effects on the health of a community.

The following tables and graphics show the total population by county and service area by age groups. It is important to note that the 5-17 and 65+ age groups are the largest. In the 2021 Assessment, the 65+ group was 3 percentage points higher than both the state and nation. It has now leveled out.

Population by gender within the report area is shown below. According to ACS 2018-2022 5 year population estimates for the report area, the female population comprised 50.04% of the report area, while the male population represented 49.96%.

**Figure 6 Demographics - Total Population by Gender<sup>6</sup>**

<sup>7</sup> Information retrieved from US Census Bureau, [American Community Survey](https://www.census.gov/programs-surveys/acs/), 2018-22.

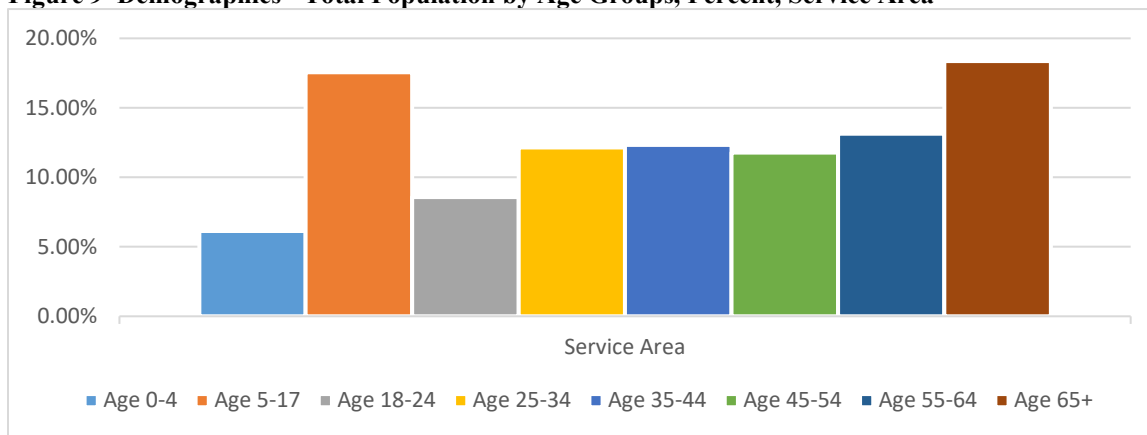

**Figure 8 Demographics - Total Population by Age Groups, Percent <sup>8</sup>**

Note in the chart below the two largest age groups are Ages 5-17 and Age 65+. There is a significant drop in the 18-24 group as it is less than half of the 5-17 group. This is somewhat indicative of youth graduating from high school and leaving the community. This is the same trend as noted in the 2018 and 2021 assessments. As the population ages, it will be very important to provide the necessary infrastructure to recruit and keep businesses and jobs to entice young people to move into the community and/or back to their hometown.

**Figure 10 Demographics – Percentage of Persons Under 5, Under 18, Over 65 <sup>7</sup>**

**Population Age 65+**

Of the estimated 219,615 total population in the report area, an estimated 40,318 persons are adults aged 65 and older, representing 18.36% of the population. This is an increase of 0.39% since the 2021 Assessment. These data points are based on the latest U.S. Census Bureau American Community Survey 5-year estimates. The number of older adults in the service area is relevant because this population has unique needs which should be considered separately from other age groups.

## Population Under 5 Years of Age

Figure 12 Demographics - Number of Children Under 5 Years of Age<sup>11</sup>

## General Population Demographic Profile by Race and Ethnicity

The people residing in the area are predominately White, which makes up 64.87% of the population. American Indians represent the next largest group at 14.65%; then two or more races at 13.24%, Black 4.3%, and Asian 0.7%. Muskogee County has the highest representation of Black at 9.96%, the state average is 7.16%. Latimer County has the highest representation of American Indian at 24.09%. The state average is 7.52%. Five of the six counties have American Indian populations above the state average. Pittsburg County has the highest representation of 2 or more races at 18.37%, the state average is 11.27%. Persons of Hispanic or Latino origin represent 6.37% (up from 5.17% in 2019 estimate) of the population. LeFlore County has the highest representation of Hispanic or Latino origin population at 7.56% (up from 6.78% in 2019 estimate). This is below the state average of 11.55%.<sup>2</sup>

### General Population Demographic Profile – Veterans

There are 16,116 veterans over the age of 18 living in the service area. This is a reduction of 1,143 since 2021 and equals 9.64% of the service area population. This percentage is higher than both the Oklahoma (8.49%) and Nation-wide (6.64%) percentage rates.

### Veteran Population

This indicator reports the percentage of the population age 18 and older that served (even for a short time), but is not currently serving, on active duty in the U.S. Army, Navy, Air Force, Marine Corps, or the Coast Guard, or that served in the U.S. Merchant Marine during World War II.

**Figure 19 Demographics – Veterans<sup>15</sup>**

### Socio-Economic Information (Poverty Profile)

It is important to note poverty is not simply the result of “bad choices.” While individuals may bear some responsibility for their circumstances, social institutions like educational systems, laws and regulations, and a lack of exposure to alternative ideas/classes, contribute to and can exacerbate an individual’s poverty.<sup>18</sup> Poverty is also considered a key driver of health status. Conversely, health status can be a key driver in poverty thus causing a vicious cycle.

The COVID-19 pandemic, overseas wars, and inflation have contributed to the plight of persons in poverty. The number of households in poverty has decreased by 0.86. Food instability continues to increase. The cost of goods has increased to the point of forcing households with low incomes to make impossible choice, such as food or medicine.

According to an article by Kate Richey with the Oklahoma Policy Institute, the reasons for poverty in Oklahoma are varied and complex, but stem from the material effects of poverty’s central feature – difficulty meeting basic human needs. The author of the article highlights five aspects of Oklahoma’s social, economic, and political landscape that explain poverty’s persistence.

- Underemployment & low wage work. Employment is a prerequisite to escaping poverty.
- Low educational attainment.
- Mass incarceration.
- Hunger & poor health.
- Inequality.

The KI BOIS service area is located in one of the poorest areas of the state. There are an estimated 40,557 persons living below poverty level in the service area (2022 estimates of poverty). The average

---

<sup>18</sup> Oklahoma Cooperative Extension Service/Oklahoma State University PowerPoint – Poverty in Oklahoma

percentage of persons below poverty level is 19.22% with a county low of 17.1% and high of 21.2%. The Oklahoma state average is 15.6%. The service area rate of poverty change from 2019 to 2022 is -0.82%, while the state change is -0.08%.

### Median Household Income

The median income decreased in every county in the service area over the last year. Conversely, the Oklahoma state median income increased. The following chart reflects median household income based on the latest 5-year American Community Survey estimates. This includes the income of the householder and all other individuals 15 years old and over in the household, whether they are related to the householder or not. Because many households consist of only one person, average household income is usually less than average family income.

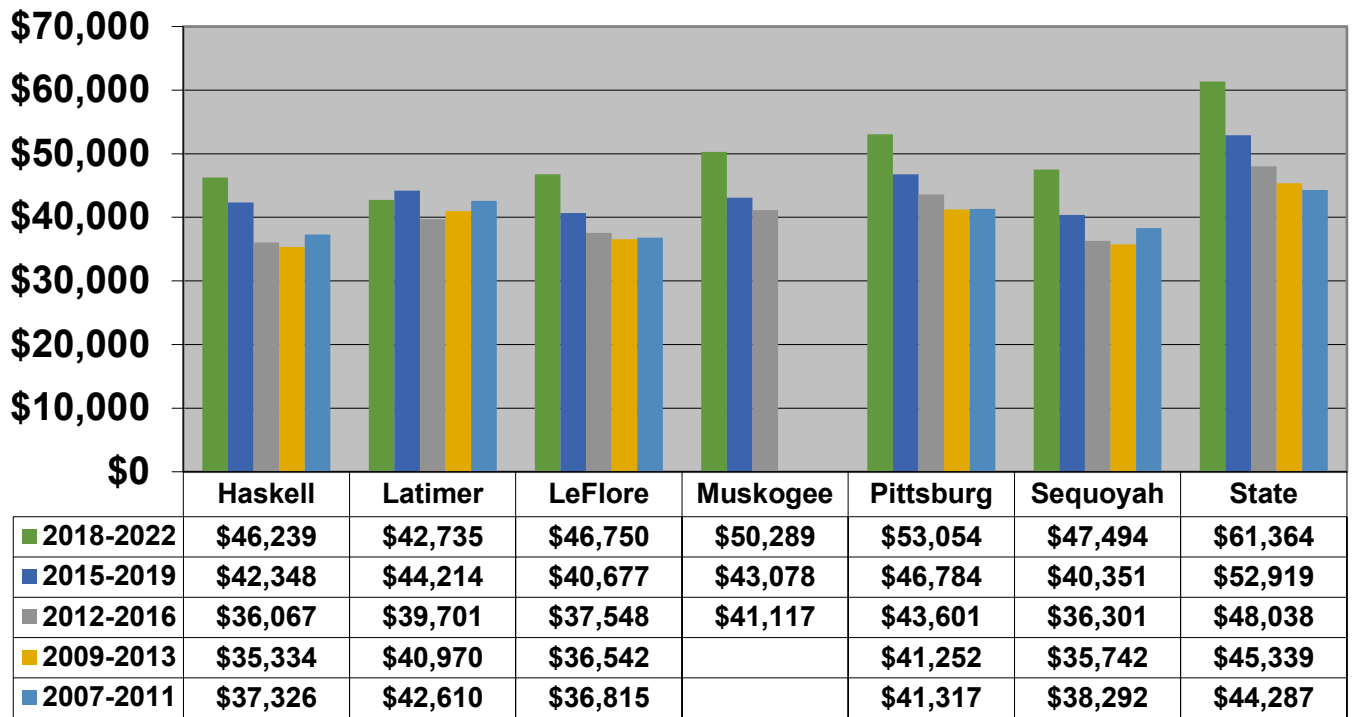

**Figure 21 Poverty – Average and Median Household Income by County<sup>19</sup>**

### Per Capita Income

The per capita income for the service area is \$25,844. This is an increase of \$2,995 since the 2015-19 estimates. However, in the same timeframe, the state of Oklahoma increased by \$5,207 and the U.S. increased by \$7,158. Per capita income includes all reported income from wages and salaries as well as income from self-employment, interest or dividends, public assistance, retirement, and other sources.

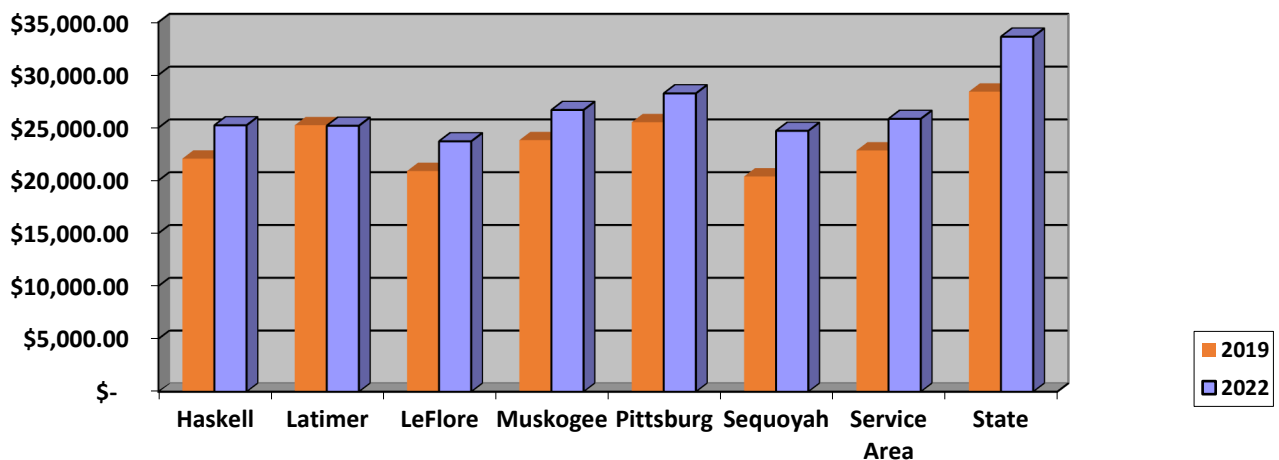

<sup>22</sup> Information retrieved from US Census Bureau, [American Community Survey](#). 2018-22.

The per capita income in the service area is the average (mean) income computed for every man, woman, and child. <sup>23</sup>

**Poverty - Per Capita Income Column Chart <sup>21</sup>**

## Poverty

According to the World Atlas, poverty is usually defined as lacking the money or material possessions to live securely. The US government measures poverty by using poverty thresholds. These thresholds are determined as the point at which a household has insufficient pre-tax income to meet its food requirements and other basic needs.

<sup>23</sup> Information taken from US Census Bureau, [American Community Survey](#), 2018-22.

<sup>24</sup> Information taken from US Census Bureau, [American Community Survey](#), 2018-22.

According to an article written by James Chen<sup>25</sup>, “The term poverty refers to the state or condition in which people or communities lack the financial resources and other essentials for a minimum [standard of living](#). As such, they cannot meet their basic human needs.”

“People and families who live in poverty may go without proper housing, clean water, healthy food, and medical attention. Each nation may have its own criteria for determining the poverty line and counting how many of its people live in poverty.”

“Poverty is a socioeconomic condition that is the result of multiple factors—not just income. These factors include race, sexual identity, sexual orientation, and access to education, among others.”

**Poverty – Federal Poverty Guidelines**

Each year, annual updates of the Department of Health and Human Services (HHS) poverty guidelines account for last calendar year’s increase in prices as measured by the Consumer Price Index.

**Figure 26 Poverty - Federal Poverty Guidelines<sup>26</sup>**

The 2024 poverty guidelines went into effect as of January 17, 2024. [Federal Register Notice, January 17, 2024](#). Poverty guidelines are for the 48 contiguous states and the District of Columbia.

PERSONS IN FAMILY/HOUSEHOLD	POVERTY GUIDELINE
1	\$15,060
2	\$20,440
3	\$25,820
4	\$31,200
5	\$36,580
6	\$41,960
7	\$47,340
8	\$52,720
For families/households with more than 8 persons, add \$5,380 for each additional person.	

**Poverty Rate < 100% Federal Poverty Level (FPL) (ACS)**

Within the report area 19.17% or 40,374 individuals for whom poverty status is determined are living in households with income below the Federal Poverty Level (FPL). This indicator is relevant because poverty creates barriers to access including health services, healthy food, and other necessities that contribute to poor health status.

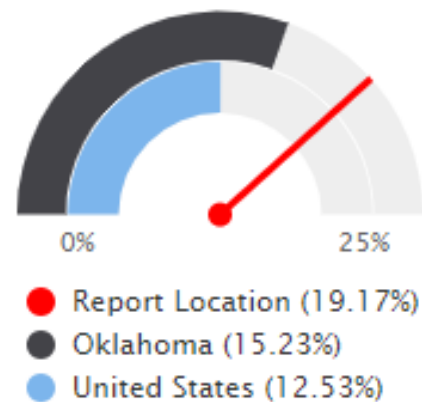

<sup>25</sup> [What Is Poverty? Meaning, Causes, and How To Measure \(investopedia.com\)](#)

### Poverty – Based on Age

Within the service area, 19.17% or 40,374 individuals are living in households with incomes below the Federal Poverty Level (FPL). This statistic is relevant because poverty creates barriers. These include barriers to education, employment, and support systems; barriers to access including health services, healthy food, and other necessities that contribute to poor health status. These issues can then deepen a household’s poverty status making it even harder for them to become self-sufficient.

### Poverty - Children

Experts say growing up in a poor household is linked with long-term consequences in educational outcomes, physical health and brain development that can follow a child well into adulthood. Children who grow up poor are more likely to be poor as adults. Studies show that children who grow up poor have a harder time escaping poverty as adults. One factor at play for why poor children go on to struggle as adults is education. Whether it’s because they didn’t have access to good schools, or their parents didn’t have the time or resources to help them, children who grow up in poverty often start at a disadvantage that can make it harder to achieve later in life.

Poverty itself can be dangerous. Children growing up poor are more likely to be injured in accidents, and five times more likely to die due to accidents, according to the American Academy of Pediatrics. Poverty can also harm a child’s brain development and lifelong mental health.<sup>30</sup>

In the service area, 27.13% or 13,830 children aged 0-17 are living in households with income below the Federal Poverty Level (FPL). This is a decrease of 0.97% from 2019. Even with the decrease, the service area child poverty rate is 6.8% greater than the State and 10.47% greater than the Nation. The importance of this statistic cannot be overstated. Poverty creates barriers to access including health services, healthy food, and other necessities that contribute to poor health status and adverse childhood experiences.

### Poverty - Seniors

Population and poverty estimates for persons age 65 and up are shown below. According to the American Community Survey (ACS) 5 year data, an average of 12.0% of people lived in a state of poverty during the survey calendar year. This is an increase of 0.5% over 2021. The poverty rate for people age 65 and up living in the report area is higher than the state average of 9.5% and national average of 10.0%.

**Figure 34 Poverty – Seniors Below 100% FPL in Each County<sup>35</sup>**

### Poverty - Race/Ethnicity

Poverty is far from evenly distributed, and depending on a person's race, gender, occupation, and social status, Oklahomans can be far less, or far more, likely to live in poverty. Some racial or ethnic groups are almost twice as likely to experience poverty. Most all racial groups in the service area, including white, have a higher percentage rate of poverty than the state and the nation. Being a child and a member of a minority racial group further increases the likelihood you will live in poverty.

**Poverty - Gender**

Women in Oklahoma are more likely to be poor than men. Women are poorer than men in all racial and ethnic groups. Poverty rates for males and females are close to the same throughout childhood, but increase for women during their childbearing years and again in old age. The poverty gap between women and men widens significantly between ages 18 and 24. The gap narrows, but never closes, throughout adult life, and it can more than double during the elderly years. In 2024, the gap widened by 0.20% over 2021.

## Poverty - Teen Births

Poverty is a cause, consequence, and condition of teen pregnancy. An average of more than 60% of young, unmarried mothers live in households that qualify as being in poverty. 1 in 4 young mothers will receive government benefits within three years of their child being born. Being a teen mother also means having less access to educational programs, which ultimately affects their ability to provide later on in life. Teen mothers are less likely to complete high school. They are much more likely to not complete college. This puts them at a disadvantage when it comes time to find a good paying job or a job that pays a living wage or has benefits or both.

The following chart reports the rate of total births to women age of 15 - 19 per 1,000 female population age 15 - 19. The service area rate is significantly higher than the state rate and 2.52 times the national rate. This indicates a higher than average number of teen mothers in the service area will face poverty issues.

Figure 42 Poverty - Teen Births<sup>43</sup>

Report Area	Females Age 15 to 19	Births to Teens	Births per 1,000 Teens

Note: This indicator is compared to the state average.

## Education

In a 2017 [report](#) from the Urban Institute, researchers found that 62 percent of children who spent at least half their childhoods in poverty went on to attain a high school diploma by age 20. By comparison, that number was 90 percent for those who never experienced poverty. The gaps only widen when it comes to college. A 2015 [report](#) from the Urban Institute found that 23 percent of children who spent at least half their childhood in poverty enrolled in postsecondary education by age 25, compared to 70 percent of children who were never poor. While roughly 37 percent of children who were never poor completed college by age 25, only 3 percent of children from persistently poor backgrounds were able to do the same.

<sup>43</sup> Information retrieved from US Census Bureau, [American Community Survey](#). 2018-22. For more information see [National Vital Statistics System](#) and [County Health Rankings](#).

In the essay “[The Financial Returns from College across Generations: Large but Unequal](#),” authors William Emmons, Ana Hernández Kent and Lowell Ricketts noted that there was a strong association between a family head’s level of education and the family’s financial well-being. “In other words, we confirm the conventional wisdom that more education is associated with more income and wealth,” they wrote. College graduate and non-college graduate families experienced similar percentage growth in income from 1989 to 2016 with an average annualized increase of .18% and .15% respectively. Emmons, Kent and Ricketts also noted that “the share of all wealth owned by college grad families increased even more than was the case for income—from 50 to 74 percent between 1989 and 2016.”<sup>44</sup>

**Education - Children Eligible for Free/Reduced Price Lunch**

A student from a household with an income at or below 130 percent of the poverty income threshold is eligible for free lunch. A student from a household with an income between 130 percent and up to 185 percent of the poverty threshold is eligible for reduced price lunch. The percentage of students receiving free or reduced price lunch is often used as a “proxy measure” for the percentage of students living in poverty. While the percentage of students receiving free or reduced price lunch can provide some information about relative poverty, it should not be confused with the actual percentage of students in poverty enrolled in school.<sup>45</sup> This indicator can still provide relevant information. Families at 185% of Federal Poverty Guidelines (FPL) are still at risk of not having a job with benefits or that pays a living wage, especially if it requires two jobs for them to achieve 185% of FPL. They are apt to be one missed paycheck away from having serious needs.

In 2023, within the service area 27,877 public school students or 69.7% are eligible for Free/Reduced Price lunch out of 39,996 total students enrolled. This is 1.4% more than 2022. This indicator assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs.

**Figure 43 Education- Children Eligible for Free/Reduced Lunch Prices<sup>46</sup>**

## Education - Attainment

Educational Attainment shows the distribution of the highest level of education achieved in the report area and helps schools and businesses to understand the needs of adults, whether it be workforce training or the ability to develop science, technology, engineering, and mathematics opportunities. Educational attainment is calculated for persons over 25 years old, and is an estimated average for the period from 2018 to 2022. As noted previously, low educational attainment is one of the top five contributors to poverty in Oklahoma. In the service area, 17.26% of the population aged 25 and older have obtained a bachelor's level degree or higher. There are 14.39% of the population aged 25 and older without a high school diploma (or equivalency) or higher, 37.43% have a high school diploma, 20.78% have some college experience, and 10.13% have an associate's degree. These all show slight increases (less than 1%) from 2019. This indicator is relevant because educational attainment is linked to earnings potential and positive health outcomes.

**Figure 44 Education – Attainment<sup>47</sup>**

## Education - Youth Not Working and Not in School

This indicator reports the percentage of youth ages 16-19 who are not currently enrolled in school and who are not employed. The report area has a total population of 11,542 between the ages 16-19, of which 11.11% are not in school and not employed.

**Figure 45 Education -Youth Not Working and Not in School<sup>48</sup>**

### Education - Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program’s goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.

This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2020 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 53 Head Start programs with a rate of 34.03 per 10,000 children under 5 years old.

**Figure 46 Education – Head Start<sup>49</sup>**

## Food Environment

Low food security households are defined as households that obtained enough food to avoid substantially disrupting their eating patterns or reducing food intake by using a variety of coping strategies, such as eating less varied diets, participating in Federal food assistance programs, or getting food from community food pantries. The 2022 prevalence of food insecurity the Oklahoma rate of 14.3% was statistically significantly higher than the 2021 prevalence, and significantly higher than the food insecurity prevalence observed from 2017 through 2020. The national rate was 11.2 %. Low food security households are defined as households whose normal eating patterns of one or more household members were disrupted and food intake was reduced at times during the year because they had insufficient money or other resources for food. The 2022 prevalence of very low food security of 4.9% in Oklahoma was statistically significantly higher than the prevalence in 2021, and higher than the annual prevalence from 2017 through 2020. The national rate was 4.3.<sup>50</sup>

### Food Environment - Low Income and Low Food Access

This indicator reports the percentage of the low-income population with low food access. Low food access is defined as living more than 1 mile (urban) or 10 miles (rural) from the nearest supermarket, supercenter, or large grocery store. Data are from the April 2021 [Food Access Research Atlas](#) dataset. This indicator is relevant because it highlights populations and geographies facing food insecurity.

21.62% of the low-income population in the report area have low food access. The total low-income population in the report area with low food access is 22,690.

Figure 47 Food Environment – Low Income and Low Access<sup>51</sup>

Report Area	Total Population	Low Income Population	Low Income Population with Low Food Access	Percent Low Income Population with Low Food Access

United States	308,745,538	97,055,825	18,834,033	19.41

### Food Environment - Food Desert Census Tracts

This indicator reports the number of neighborhoods in the report area that are within food deserts. The USDA Food Access Research Atlas defines a food desert as any neighborhood that lacks healthy food sources due to income level, distance to supermarkets, or vehicle access. The report area has a population of 79,775 living in food deserts and a total of 20 census tracts classified as food deserts by the USDA.

Figure 48 Food Environment - Food Desert Census Tracts<sup>52</sup>

Report Area	Total Population (2010)	Food Desert Census Tracts	Other Census Tracts	Food Desert Population	Other Population

United States	308,745,538	9,293	63,238	39,074,974	269,670,564

### Food Environment – Grocery Stores

Healthy dietary behaviors are supported by access to healthy foods, and grocery stores are a major provider of these foods. Grocery stores are defined as supermarkets and smaller grocery stores primarily engaged in retailing a general line of food, such as canned and frozen foods; fresh fruits and vegetables; and fresh and prepared meats, fish, and poultry. Delicatessen-type establishments are also included. Convenience stores and large general merchandise stores that also retail food, such as supercenters and

<sup>52</sup> Information retrieved from US Department of Agriculture, Economic Research Service, [USDA - Food Access Research Atlas](#), 2019

warehouse club stores, are excluded. This indicator describes the number of grocery stores and the number of grocery stores per 100,000 in the report area.

**Figure 49 Food Environment – Grocery Stores<sup>53</sup>**

## Unemployment

Unemployment rates in the service area have historically been higher than the state average. While all rates went up due to COVID-19, they have also come down. Four of the six counties have seen a small increase in unemployment rates.<sup>54</sup>

**Figure 50 Employment - Unemployment Rates<sup>55</sup>**

## Health

Poverty is a key driver of poor health status. According to the Institute for Research on Poverty’s Poverty Fact Sheet: Poor and In Poor Health, education, occupation, income, assets, and socioeconomic status are major determinants of health. Material factors like unhealthy housing, unemployment, and food insecurity all affect one’s health. Another reason poverty affects health is that it often exposes people to unfavorable living and workplace conditions, stress, and pollution that affect health across the life course, starting in utero. Children are especially vulnerable to the negative health effects of poverty. People with higher incomes have health problems too, of course; however, those with lower incomes suffer disproportionately poor health. It has been noted, as family income increases, the number of families reporting poor health decreases.<sup>58</sup>

### Health - Uninsured Population

As has been noted previously, poor health status can be a contributor to poverty status. Conversely, poverty status can be a contributor to poor health. The lack of health insurance is considered a key driver of health status. This indicator reports the percentage of the total civilian non-institutionalized population without health insurance coverage. This indicator is relevant because lack of insurance is a primary barrier to healthcare access including regular primary care, specialty care, and other health services that contributes to poor health status.

<sup>57</sup> Statistics taken from US Department of Labor, [Bureau of Labor Statistics](#). 2021 - April.

<sup>58</sup> For more information go to <https://www.irp.wisc.edu/>

**Health - Access to Primary Care**

This indicator reports the number of primary care physicians per 100,000 population. Doctors classified as "primary care physicians" by the AMA include: General Family Medicine MDs and DOs, General Practice MDs and DOs, General Internal Medicine MDs and General Pediatrics MDs. Physicians age 75 and over and physicians practicing sub-specialties within the listed specialties are excluded. This indicator is relevant because a shortage of health professionals contributes to access and health status issues.

### Health - Tobacco Usage - Current Smokers

It is well documented that smoking is detrimental to one's health status. Smoking is also very expensive. This indicator reports the percentage of adults age 18 and older who report having smoked at least 100 cigarettes in their lifetime and currently smoke every day or some days. In the report area an estimated 23.1% of adults age 18 or older self-report currently smoking cigarettes some days or every day. This is a reduction of 2.66% from 2018 to 2021. This indicator is relevant because tobacco use is linked to leading causes of death such as cancer and cardiovascular disease (and cigarettes are expensive).

Figure 55 Health – Tobacco Usage – Current Smokers<sup>61</sup>

Report Area	Total Population	Adults Age 18+ as Current Smokers (Crude)	Adults Age 18+ as Current Smokers (Age-Adjusted)
KI BOIS CAF CAA Service Area	218,792	23.1%	24.0%

### Health - Poor Physical Health

Poverty and poor health are inextricably linked. Within the report area, 15.9% of adults 18 and older who reported poor physical health in the past month of the total population age 18 and older. This indicator reports the percentage of adults age 18 and older who report 14 or more days during the past 30 days during which their physical health was not good. This indicator is relevant because it is a measure of general poor health status.

### Homelessness

Homelessness continues to be a reality facing many individuals and families. KI BOIS Community Action participates in the Point in Time Count of the homeless, both sheltered and unsheltered, each January. The following numbers were collected in Haskell, Latimer, LeFlore, Muskogee, and Pittsburg Counties on January 25, 2024. Unsheltered numbers were also collected in Sequoyah County. 2015 numbers do not include Muskogee County.

**Housing**

**Housing - Rental**

In Oklahoma, the Fair Market Rent (FMR) for a two-bedroom apartment is \$1035 per month, up from \$828 in 2021. In order to afford this level of rent and utilities – without paying more than 30% of income on housing – a household must earn \$3450 monthly or \$41,407 annually, up from \$2,761 monthly or \$33,132 annually in 2021. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into a Housing Wage of \$19.91, up from \$15.93 in 2021.

In Oklahoma, a minimum wage worker earns an hourly wage of \$7.25. Monthly rent affordable with a minimum wage job is \$377. In order to afford the FMR for a two-bedroom apartment, a minimum wage earner must work 110 hours per week (down 4 hours from 2021), 52 weeks per year. Or a household must include 2.75 minimum wage earners working 40 hours per week year-round in order to make the two-bedroom FMR affordable. Wages have increased but not at the same rate as rent. Therefore, rental

housing that was available for families with low incomes as little as four years ago, is now being rented by lower middle class households. The COVID-19 pandemic further exacerbated the escalating housing crisis. Increased rental rates and limited housing availability have caused this ripple effect further reducing “affordable” housing for families with low and very low incomes.

<sup>64</sup> Information taken from the National Low Income Housing Coalition - Out of Reach 2024.

<sup>65</sup> Information taken from the National Low Income Housing Coalition - Out of Reach 2024.

Monthly Supplemental Security Income (SSI) payments for an individual are \$984 in Oklahoma, up from \$824 in 2021. If SSI represents an individual's sole source of income, \$295 in monthly rent is affordable, while the FMR for a one-bedroom is a minimum of \$827, up from \$653 in 2021. Please refer to the appendices for more information on housing affordability.

**Housing - Cost Burden (30%)**

This indicator reports the percentage of the households where housing costs are 30% or more of total household income. This indicator provides information on the cost of monthly housing expenses for owners and renters. The information offers a measure of housing affordability and excessive shelter costs. The data also serve to aid in the development of housing programs to meet the needs of people at different economic levels. Of the 84,167 total households in the report area, 19,439 or 23.10% of the population live in cost burdened households.

**Figure 60 Housing – Cost Burden (30%)<sup>67</sup>**

#### Housing - Cost-Burdened Households by Tenure, Percent

These data show the percentage of households by tenure that are cost burdened. Cost burdened rental households (those that spent more than 30% of the household income on rental costs) represented 39.02% of all of the rental households in the report area, according to the U.S. Census Bureau American Community Survey (ACS) 2018-2022 5-year estimates. The data for this indicator is only reported for households where tenure, household housing costs, and income earned was identified in the American Community Survey.

<sup>68</sup> Information retrieved from US Census Bureau, [American Community Survey](#). 2018-22.

**Housing - Substandard Housing**

According to the Housing Assistance Council’s website article Poverty and Substandard Housing Linked to Poor Health Rankings,<sup>70</sup> in counties with persistent poverty, the incidence of housing units lacking adequate plumbing is more than twice the national rate, and households are more likely to be overcrowded. These issues contribute to the overall health and wellbeing of families and individuals or lack there of.

The following chart reports the number and percentage of owner- and renter-occupied housing units having at least one of the following conditions: 1) lacking complete plumbing facilities, 2) lacking complete kitchen facilities, 3) with 1 or more occupants per room, 4) selected monthly owner costs as a percentage of household income greater than 30%, and 5) gross rent as a percentage of household income greater than 30%. Selected conditions provide information in assessing the quality of the housing inventory and its occupants. This data is used to easily identify homes where the quality of living and housing can be considered substandard. Of the 84,167 total occupied housing units in the report area, 20,923 or 24.86% have one or more substandard conditions.

<sup>69</sup> Information retrieved from US Census Bureau, [American Community Survey](#). 2018-22.

## Transportation

Effective transportation networks are essential to any community. Lack of reliable transportation is a significant barrier to finding and maintaining employment. Lack of transportation is also a problem when a parent’s childcare and job are located far from each other. Lack of transportation is also an issue in accessing health care.

KI BOIS Area Transit System (KATS) provides transportation services in five of the six counties of the service area, as well as, the additional 7 counties of Adair, Cherokee, Okmulgee, McIntosh, Hughes, Okfuskee and Wagoner. Transit depots are located in all twelve counties. KATS provides transportation for job routes, Medicaid approved medical appointments, and demand/response service. KATS has continued to provide transportation services during the pandemic.

The following chart reflects activity in the transportation program.

FY'10	4,133,864	5,104,747	630,416	79,974	44,731	26,210

### Trends

The first notable trend is a reduction in population across the service area. From 2010 to 2021m there was a 2.53% reduction. From 2021 to 2024, there was an additional 5.96% reduction. Ages 25-34 and 45-54 saw a slight decrease. Ages 35-44 and the 65+ population saw a slight increase.

The second notable trend is a slight drop in the percentage of the population living in poverty, including children. The poverty rate for the general population in the 2015 assessment was 16.84%, in the 2018 assessment it was 21.27%, and in the 2021 assessment it was 20.03%. In this assessment, the rate is down to 19.17%, but is still 3.94% higher than the State rate and 6.64% higher than the National rate. The child poverty rate in the 2015 assessment was 28.3%, in the 2018 assessment it was 30.21% and in the 2021 assessment it was 28.1%. In this assessment, the rate is down to 27.13%, but is still 6.80% higher than the State rate and 10.47% higher than the National rate. This gap has increased slightly since the 2021 assessment.

An overarching negative trend for the service area is the data is consistently higher or lower than the state and national average depending on the indicator. If it is desirable to have a higher percentage, the service area is generally lower. If it is positive to have a lower percentage, the service area is higher. This has been a consistent trend over several assessments and is a testament to the level of need in the service area.

### Assessment Profile

Below are the top ten “greatest” needs and “some” needs as identified through a survey taken of the KI BOIS Community Action base service area and the additional counties served by some KI BOIS programs.

<sup>72</sup> Statistics from the KI BOIS CAF Community Services Block Grant Annual Report.

**Figure 64 Assessment - Greatest Need (6 Base Counties and extra Programmatic Counties)<sup>73</sup>**

**Figure 58 Assessment - Some Need (6 Base Counties and extra Programmatic Counties)<sup>74</sup>**

### Identified Needs

The top six agency wide results for the need questions are listed below. The number to the right side is their rank from the prior year. The line below the need is the identified outcome for the need. The line below that lists actual or potential partners who will or may address the need. Please see Appendix A for key informant survey, survey results and results from prior years.

<sup>73</sup> Information retrieved from the 2024 KI BOIS Community Action Needs Assessment Survey

<sup>74</sup> Information retrieved from the 2024 KI BOIS Community Action Needs Assessment Survey

### Primary – Greatest Need

- 1) Family – Families need decent affordable houses to rent. 2  
Families will rent decent affordable houses.  
Partners include Choctaw Nation and developers.
- 2) Family – Families need higher paying jobs and/or jobs with benefits. 1  
Families will be employed in higher paying jobs or jobs with benefits.  
Partners include Choctaw Nation and employers.
- 3) Family – Families need decent affordable houses to buy.  
Families will buy decent affordable houses.  
Partners include Choctaw Nation and developers.
- 4) Family - Families need mental health care. 5  
Families will have mental health care.  
Partners include Federally Qualified Heath Centers and Tribal Health Care.
- 5) Family - Families need substance abuse counseling and treatment. 5  
Families will have substance abuse counseling and treatment.  
Partners include Federally Qualified Heath Centers, Tribal Health Care, and treatment centers.
- 6) Family – Families need utility services. 3  
Families will maintain utility services.  
Partners include utility companies, churches, and Tribal Nations.

### Secondary – Some Need

- 1) Family – Families need income tax preparation assistance. 1  
Families will have their income tax forms prepared and filed at no cost.  
Partners include the IRS and AARP.
- 2) Family – Families need computer skills training. 5T  
Families will receive computer skills training.  
Partners include Kiamichi Technology System and public schools.
- 3) Family – Families English as another language classes. 4  
Families will receive English as another language classes.  
Partners include Kiamichi Technology System, public schools, colleges, and universities.
- 4) Family - Families with children need child immunizations. 8  
Families with children will receive immunizations for their children.  
Partners include Federally Qualified Heath Centers, Tribal Health Care, and the Health Department.
- 5) Family – Families and individuals need volunteer opportunities. 5T  
Families and individuals will have volunteer opportunities.  
Partners include the Foster Grandparent Program, the Retired Senior Volunteer Program, community partners.

- 6) Family –Families need literacy classes.  
Families will receive literacy classes.  
Partners include Kiamichi Technology System, public schools, colleges, and universities.

## **Prioritized Needs**

The top 3 prioritized needs to be addressed by the Agency are 1) Decent Affordable Houses to Rent, 2) Higher Paying Jobs/Jobs with Benefits, and 3) Utility Assistance. The top three programs to continue according to survey respondents are #1) Transportation, #2 Emergency Services), and #3) Prescription Services.

### **1) Decent Affordable Houses to Rent**

This need ranked #1 on the assessment survey, up from #2 in the last survey. It was chosen due to the fact it has been consistently in the top five for the last eight years. The service area housing stock is aging and rental housing is not always maintained, updated, or available. With the current housing crisis, households with low incomes are often forced to rent substandard housing to make it affordable. Other households with low incomes find themselves paying substantially more than 30% of their income for decent housing.

### **2) Higher Paying Jobs/Jobs with Benefits**

This need ranked #2 on the assessment survey, down from #1 in the last survey. It was chosen because it has consistently been the highest ranked need on the service area assessments for well more than a decade. It was only one vote behind Decent Affordable Houses to Rent this year. A majority of the service area is considered rural. In many of those areas, jobs pay below a living wage and provide no benefits. An issue facing job seekers is many employers will not hire someone with a felony. There are a significant number of skilled unemployed persons who either have a felony or cannot pass a pre-employment drug screening.

### **3) Utility Assistance**

This need ranked #6 on the assessment survey, down from #3 in the last survey. It was chosen due the fact it is a consistent request that has increased exponentially in the several years. The Agency provided utility arrears assistance to 2980 times in 2023 compared with 2067 in 2021 in 2020 and 675 in 2019. Rental households who lose their utility service are more often than not in violation of their rental/lease agreement. This jeopardizes their housing stability. With the available housing stock still very limited, it is vitally important to keep a family housed instead of trying to “re-house” them. It is also more cost effective to help a family with utility bills instead of paying security and utility deposits to start over in a new home.

## **Community Resources**

The Agency compiles a resource guide annually for the six base counties and some additional counties served by Agency programs. This resource guide was updated during the completion of the assessment. As programs are developed and services provided, resources along with gaps in resources are noted. Changes and/or additions to community resources are also noted. All new or changed resource information is provided the Administrative Office for inclusion in the resource guide. Gaps and

potential solutions are discussed with Agency staff and in public venues, such as coalition meetings or resource fairs.

Notable resources in the area include four federally qualified health centers: The Health and Wellness Center, Caring Hands, Muskogee Health Center, NeoHealth, and Redbird Smith Health Center. The Health and Wellness Center has clinics in five of the six counties in the service area.

Also notable are the Tribal Nations. Agency programs partner with at least six Nations. The Choctaw Nation covers five of the six counties in the service area. The Cherokee Nation serves the sixth county along with other Agency programs. The Cities of Stigler, Wilburton, McAlester, and Poteau have partnerships with the Agency to provide resources in many areas.

### Federally Qualified Health Centers

Federally Qualified Health Centers are community-based health care providers that receive funds from the HRSA Health Center Program to provide primary care services in underserved areas.

**Figure 65 Resources – Federally Qualified Health Centers<sup>75</sup>**

Also notable are the Tribal Nations. Agency programs partner with at least six Nations. The Choctaw Nation covers five of the six counties in the service area. The Cherokee Nation serves the sixth county along with other Agency programs. The Cities of Stigler, Wilburton, McAlester, and Poteau have partnerships with the Agency to provide resources in many areas.

### **SoonerStart Early Intervention Program**

SoonerStart is available in all eight Head Start counties and is designed to enhance the abilities of infants and toddlers with disabilities and/or developmental delays and to strengthen the capacity of their families to support their development.

SoonerStart provides a wealth of services to children with disabilities and their families. These services include physical therapy, occupational therapy, speech pathologist, nutrition, pediatric nurse, vision specialist, hearing specialist, and social worker/counselor. SoonerStart services may be provided in the child’s home, daycare, and could extend to other settings within the community.

Additional resources are available for families of children with disabilities. A list of many of these resources can be found on page 10 of the KI BOIS Community Action Resource Book. The Resource Book can be found in the attachments to this document.

### **Child Care Resources**

There are many childcare facilities and homes in the six county service area. Most have a star rating and many accept DHS subsidy. In the State of Oklahoma, a variety of initiatives have been implemented to improve the level of childcare quality. The Quality Rating and Improvement System has tiered system of quality and reimbursement known as “Reaching for the Stars” which provides incentives for programs that meet the “star” criteria.<sup>76</sup> More information on the “Reaching for the Stars” program can be found at the Oklahoma Department of Human Services website. The web address is [Child Care Services \(oklahoma.gov\)](http://oklahoma.gov).

Not including Head Start Centers, there are 13 childcare facilities/homes in Haskell County, 10 in Latimer County, 32 in LeFlore County, 47 in Muskogee County, 29 in Pittsburg County, and 32 in Sequoyah County. These numbers represent a net gain of 21 facilities/homes across the six counties. The gains were in three counties: 2 in LeFlore County, 16 in Muskogee County, and 8 in Sequoyah County. From 2013 to 2015, there was a loss of 41 facilities. From 2015 to 2018, there was a loss of 24 facilities. The 2021 numbers represented the first net gain since 2013. However, it is still notable that

<sup>76</sup> Information taken from the Oklahoma Department of Human Services website.

three of the six counties had losses in open facilities. This makes it more difficult for working parents to continue in the workforce.

**Figure 66 Resources - Number of Day Care Providers**

	2024 <sup>77</sup>	2021 <sup>78</sup>	2018 <sup>79</sup>	2015 <sup>80</sup>	2013 <sup>81</sup>	Gain/Loss
Haskell County	13	15	9	12	16	-13.33%
Latimer County	8	10	7	8	12	-20.00%
LeFlore County	32	30	36	57	55	+6.70%
Muskogee County	47	31	48			+51.61%
Pittsburg County	29	30	26	28	35	-3.33%
Sequoyah County	32	24	17	14	28	-41.67%

A list of facility names, cities, capacities, star level, and DHS Subsidy can be found in the attachments.<sup>82</sup> A criteria specific search for day care may be conducted at <http://childcarefind.okdhs.org/childcarefind/>.

### Child Tax Credit

The Child Tax Credit helps families with qualifying children get a tax break. Families may be able to claim the credit even if they don't normally file a tax return. Families may qualify for the full amount of the Child Tax Credit for each qualifying child if they meet all eligibility factors and your annual income is not more than \$200,000 (\$400,000 if filing a joint return) (2024 thresholds). Parents and guardians with higher incomes may be eligible to claim a partial credit.<sup>83</sup>

### Interagency Councils and Coalitions

Interagency councils and coalitions provide a venue for a variety of agencies, service providers and others to come together for the benefit of the communities and counties they serve. Within this venue members recognize, assess, strategize, plan, and provide solutions to many community issues.

KI BOIS Community Action has representation on all six county coalitions (Haskell, Latimer, LeFlore, Muskogee, Pittsburg, and Sequoyah Counties) in the service area.

Each coalition is in a different stage of development and is operated slightly different. Staff is actively engaged in the projects of each coalition.

KI BOIS Community Action has a representative that serves on the newly formed Interagency Council on Homelessness: Oklahoma and the Southeastern Oklahoma Continuum of Care board. KI BOIS Community Action serves as the lead agency for the Continuum of Care. The Continuum works to ensure all homeless persons in its area are identified and served by the homeless response system.

The full resource guide may be found in the appendices.

## Agency Data

In 2023, the Agency served 8,276 people in 5,183 households, up from 7,599 people in 4,913 households in 2020. Of that number, 396 were reported as being homeless (using multiple definitions of homeless). Of the total number reporting gender, 4,845 were female and 3,419 were male, 5 were other, and 7 did not report gender.

The Agency served 23 individuals who received on-the-job training, 13 who received job coaching, and 20 who received assistance with job placements. 697 people obtained and/or maintained safe and affordable housing. 986 obtained emergency rent or mortgage assistance.

The following are some of the efforts made by KI BOIS Community Action to address the identified needs in the past year.

### Greatest Need

#### Higher Paying Jobs or Jobs with Benefits

- KI BOIS CAF applied for and was granted a Work Ready Oklahoma (WRO) program for operation in LeFlore County. WRO-Poteau will provide training opportunities and employment initiatives that will improve self-sufficiency and the formation/maintenance of stable, healthy families. KI BOIS CAF is constructing a new building to house the program. The first participant workshop will be held in September 2024.
- KATS provides work routes through collaborations with the Creek and Cherokee. Demand/Response services also provide transportation to work in many areas
- Throughout their service area, KATS operates 15 work routes transporting 87 persons per day to work.

#### Affordable Houses to Rent/Buy

- KI BOIS Community Action owns rental properties including 3 duplexes (6 units), the 202 Senior Housing (48 units), and 3 single family houses.

#### Health Insurance/Affordable Health Care

- The Health and Wellness Center operates 7 clinics, two stand-alone SUD facilities, a medical detox center, three stand-alone pharmacies and the Head Start program
- In 2023, The Health and Wellness Center, as a whole, served 31,577 patients with 116,754 patient visits.

#### Utility/Rent Assistance

- KI BOIS Community Action provides emergency rent and utility assistance in all six counties of the service area. KI BOIS CAF provided utility assistance to 2,980 persons in 2023.
- SSVF, ESG, and the DV Program also help with emergency utilities for eligible participants.

### Some Need

#### Income Tax Preparation Assistance

- KI BOIS provides tax return services in 4 counties.
- 1056 tax returns were processed in 2023.

For more agency data, please see the appendices for the KI BOIS Community Action Accomplishments, Coordination of Funds, and Outcomes of Efforts report.

## Community Needs Assessment Survey

KI BOIS Community Action regularly conducts a survey to determine the needs in your community so we will know where to best focus our efforts and funding. Your help in completing this survey is sincerely appreciated.

If you prefer to complete this form electronically, it is available at [www.kibois.org](http://www.kibois.org) on the Resources tab, the KI BOIS Facebook page, or on Twitter @KIBOIS\_CAF. If completing the paper form, please return to your local KI BOIS Community Action office.

Please list your City \_\_\_\_\_, County \_\_\_\_\_, and Zip Code \_\_\_\_\_

Check the response that best represents you.

**4. What is your gender?**

- Male  Female

**6. What is your race?**

- White or Caucasian  Black or African American  
 Asian  American Indian or Alaska Native  
 Native Hawaiian or Other Pacific Islander  
 Other \_\_\_\_\_

**8. What best describes your household?**

- Two Parent  Single Parent Female  
 Single Parent Male  Multifamily household  
 Single person  Two adults no children  
 Grandparent(s) raising grandchildren

**10. What is the primary language spoken in the home?**

- English  Spanish  Other \_\_\_\_\_

**12. Anyone in your household receive disability benefits?**

- Yes  No

If yes, please mark # of each below:

\_\_\_\_\_ # of Children \_\_\_\_\_ # of Adults

**14. Mark the choice that best describes you:**

- Client of Agency  
 (Have received services from agency. Example – Tax Preparation)  
 Agency Board Member  
 Agency Volunteer  
 Representative of an educational institution  
 (Public or private school, college, technical school)  
 Representative of a government entity  
 (City, County, State, or Federal)  
 Representative of a private organization  
 (Business, local civic group)  
 Representative of a faith-based organization  
 (Church or other religious organization)  
 Representative of a community based organization  
 (Nonprofit entities providing direct services)  
 General Public  
 (Have NOT received services from the agency)

**5. What is your ethnicity?**

- Hispanic  Non-Hispanic

**7. What is your highest level of education completed?**

- Less than 9<sup>th</sup> grade  9<sup>th</sup>-12<sup>th</sup> grade (no diploma)  
 High School Diploma/GED  Technical School/Vo-Tech  
 Some college (no degree)  Associate's degree  
 Bachelor's degree  Graduate/Professional

**9. WRITE IN THE NUMBER of persons for each age group in your household.**

- \_\_\_\_\_ 0-2 \_\_\_\_\_ 3-4 \_\_\_\_\_ 5-9 \_\_\_\_\_ 10-14  
 \_\_\_\_\_ 15-17 \_\_\_\_\_ 18-19 \_\_\_\_\_ 20-24 \_\_\_\_\_ 25-34

## GEOGRAPHY

<b>Geography</b>						
Population per square mile, 2020	58.3	81.8	33.5	30.3	13.1	20.0
Population per square mile, 2010	63.0	87.6	35.1	31.7	15.4	22.1
Land area in square miles, 2020	673.56	810.62	1,305.52	1,589.41	722.11	576.73
Land area in square miles, 2010	673.27	810.45	1,305.46	1,589.21	722.08	576.52
FIPS Code	40135	40101	40121	40079	40077	40061

[About datasets used in this table](#)

**Value Notes**

 Methodology differences may exist between data sources, and so estimates from different sources are not comparable.

Some estimates presented here come from sample data, and thus have sampling errors that may render some apparent differences between geographies statistically indistinguishable. Click the Quick Info  icon to the left of each row in TABLE view to learn about sampling error.

The vintage year (e.g., V2023) refers to the final year of the series (2020 thru 2023). Different vintage years of estimates are not comparable.

Users should exercise caution when comparing 2018-2022 ACS 5-year estimates to other ACS estimates. For more information, please visit the [2022 5-year ACS Comparison Guidance](#) page.

**Fact Notes**

- (a) Includes persons reporting only one race
- (b) Hispanics may be of any race, so also are included in applicable race categories
- (c) Economic Census - Puerto Rico data are not comparable to U.S. Economic Census data

**Value Flags**

- D** Suppressed to avoid disclosure of confidential information
- F** Fewer than 25 firms
- FN** Footnote on this item in place of data
- NA** Not available
- S** Suppressed; does not meet publication standards
- X** Not applicable
- Z** Value greater than zero but less than half unit of measure shown
- Either no or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest or upper interval of an open ended distribution.
- N** Data for this geographic area cannot be displayed because the number of sample cases is too small.

QuickFacts data are derived from: Population Estimates, American Community Survey, Census of Population and Housing, Current Population Survey, Small Area Health Insurance Estimates, Small Area Income and Poverty Estimates, State and County Housing Unit Estimates, County Business Patterns, Nonemployer Statistics, Economic Census, Survey of Business Owners, Building Permits.

# **Housing and Household Information**

# OKLAHOMA

#46\*

In **Oklahoma**, the Fair Market Rent (FMR) for a two-bedroom apartment is **\$1,035**. In order to afford this level of rent and utilities — without paying more than 30% of income on housing — a household must earn **\$3,451** monthly or **\$41,407** annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into an hourly Housing Wage of:

**\$19.91**  
PER HOUR  
**STATE HOUSING  
WAGE**

## FACTS ABOUT OKLAHOMA:

STATE FACTS	
Minimum Wage	<b>\$7.25</b>
Average Renter Wage	<b>\$17.99</b>
2-Bedroom Housing Wage	<b>\$19.91</b>
Number of Renter Households	<b>518,633</b>
Percent Renters	<b>34%</b>

**110**  
Work Hours Per Week At  
**Minimum Wage To Afford a 2-Bedroom  
Rental Home** (at FMR)

**88**

† Wage data not available (See Appendix B).

1: BR = Bedroom

2: FMR = Fiscal Year 2024 Fair Market Rent.

3: This calculation uses the higher of the county, state, or federal minimum wage, where applicable.

4: AMI = Fiscal Year 2024 Area Median Income

5: Affordable rents represent the generally accepted standard of spending not more than 30% of gross income on gross housing costs.

# 2023 Accomplishments, Coordination of Funds, and Outcomes of Efforts

The purpose of this document is to communicate the service activities and outcomes of KI BOIS Community Action to the Board of Directors and the communities served. The contents of this document are derived from information contained in the Community Services Block Grant (CSBG) Community Action Plan, Application, and the Annual Report, which has been submitted to State and Federal agencies.

## Highlighted Successes

1. ***State Management Accomplishment:*** Describe what you consider to be the top management accomplishment achieved by your State CSBG office (the Oklahoma Department of Commerce) during the reporting year.

The State CSBG office has actively participated in the Oklahoma Association of Community Action Agencies' conferences. They have provided trainers and content for workshops during conferences. It is very beneficial to the network of Eligible Entities to come together for training. It allows all Eligible Entities to hear the same message, and benefit from questions posed and answers given.

2. ***CSBG Eligible Entity Management Accomplishments:*** Describe notable management accomplishments achieved by CSBG Eligible Entities (local Community Action Agency) in your state during the reporting year. Describe how responsible, informed leadership and effective, efficient processes led to high-quality, accessible, and well-managed services and strategies.

In many Community Action Agencies, the administrative staff, which includes fiscal staff, are somewhat removed from the daily services provided by the agency. This can, at times, create a disconnect from programs and the agency's mission. To counteract this and ensure familiarity with each program operated by the Agency, management started a monthly Lunch and Learn series. Each month, the Agency provided lunch and selected programmatic staff gave a presentation on their program, the geographic area served, and the services provided. Attendees were able to ask questions about services and funding requirements. Lunch and Learns have fostered stronger relationships between administrative and programmatic staff. In addition to program knowledge, attendees have gained a better understanding of how the Agency is meeting its mission and that each staff person has a part to play in Agency success.

To further connect administrative staff to the people served by the Agency, administrative staff attended the Bridges out of Poverty community workshop. This workshop gave participants insight into the lives of people struggling with poverty. All staff attending the workshop were touched by the information shared and learned valuable lessons that can be put to use in everyday life.

**3. Innovative Solutions Highlights:** *Provide examples of ways in which the agency addressed a cause or condition of poverty in the community using an innovative or creative approach.*

According to statistics provided by the Oklahoma State Department of Education (OSDE), in 2019-2020, close to 41% of kindergarten students were determined at risk for reading difficulties at the beginning of the year. In 2019, only 39% of 3rd graders scored proficient or above on state English Language Arts assessments; 61% of 3<sup>rd</sup> grade students are remedial readers. Remedial reading scores correlate strongly to increased poverty, incarceration, and other negative outcomes later in life. The pandemic exacerbated this situation.

The Dolly Parton Imagination Library is a book gifting program that provides free, high-quality age-appropriate books to children from birth to age five. The library was launched in 1995 and grew quickly nationwide then worldwide. Local affiliates are responsible for marketing and fund-raising for their programs.

Through 2024, the OSDE is utilizing some of its federal Elementary and Secondary School Emergency Relief (ESSER) pandemic funding to provide 1:1 match for Oklahoma Dolly Parton Imagination Library affiliates. Future match funding is anticipated to be provided through private donors, additional grants, and corporate sponsorships. The local affiliate pays \$2.20 per book and is reimbursed \$1.10 by the OSDE.

KI BOIS Community Action has partnered with the Dolly Parton Imagination Library, the Haskell County Coalition, Cookson Hills Electric Cooperative, and the Oklahoma State Department of Education to bring books to every child from birth to age five in Haskell County. Books are not limited to one per household; each child receives their own book addressed to them. Books are also available in Spanish.

KI BOIS Community Action staff serve as the fiscal agent for the Haskell County program and manage child enrollments and marketing. The Haskell County Coalition is the umbrella agency for the program. Cookson Hills Electric Cooperative gave \$5,000 to help start the program. A local private donor has also given \$5,000 to the program.

The Haskell County Dolly Parton Imagination Library launched in August 2023 and immediately had over 100 children enroll. Enrolled children received their first book September 1, 2023. The Year 1 enrollment target is 15% or 129 of the eligible children in the county. In four months, the Library served 247 children. Currently, there are 218 children enrolled and 29 who have graduated after their fifth birthday. Between September 1<sup>st</sup> and December 31, 2023, enrolled children received 693 books.

CSBG funds were used to pay a portion of support salaries, the Community Liaison's salary, and associated costs.

4. ***State and CSBG Eligible Entity Continuous Improvement.*** *Provide examples of changes made by CSBG Eligible Entities to improve service delivery and enhance impact for individuals, families, and communities with low-incomes based on their in-depth analysis of performance data.*

In the last Community Needs Assessment, it was discovered food insecurity was an issue for 17.51% of the service area population or 40,900 people. The state rate for food insecurity is 15.8% and the national rate is 12.63%. Of the 40,900 people who are food insecure, 28% of adults and 29% of children are ineligible for food assistance. The pandemic and inflation have only served to increase the number of households experiencing food insecurity.

KI BOIS Community Action identified food access as a goal in its most recent strategic plan. KI BOIS CAF operates three food pantries: one in each of the following counties, Haskell, Latimer, and LeFlore. The Haskell County food pantry building received a makeover when the pantry started several years ago. The LeFlore County food pantry was moved into an upgraded space in the new Community Action office in 2022. It was time for the Latimer County Food Pantry to receive an upgrade and expansion as well. Through a grant received from the Dollar General Store, new shelves, tables, and returnable grocery bags were purchased for the distribution of food. Cold storage capacity was increased with the purchase of a new refrigerator and two upright freezers. Two additional rooms made distribution more streamlined. One room is for Veteran food boxes, and one is for cold storage items received from the Dollar General Store and fresh produce received from the Eastern Oklahoma Food Bank.

Located nine miles south of Wilburton, in Latimer County, is a veterans' colony. The Colony provides home sites for veterans of foreign wars. Prior to the Latimer County food pantry renovation, they were serving 3 to 4 veteran households a month through The Food Assistance Program (TEFAP). The KI BOIS CAF Supportive Services for Veteran Families and the KI BOIS Latimer County office identified an increased need for food at the Colony. The two KI BOIS programs partnered with the Veterans Representative at the Eastern Oklahoma Food Bank and Veterans' Colony representatives to strategically determine the most feasible way to serve more households. KI BOIS CAF signed up to receive Commodity Supplemental Food Program (CSFP) boxes. These boxes are meant to improve the health of elderly persons with low incomes of at least 60 years of age by supplementing their diets with nutritious foods. KI BOIS CAF receives 52 CSFP boxes each month. Seventeen of those go to senior households at the Veterans' Colony and the others are distributed to senior households in the community. KI BOIS CAF staff receive the boxes and ensure everything is ready for pick-up and delivery. Volunteers from the Colony pick up and deliver the boxes and cheese to the eligible veteran households. The KI BOIS Latimer County food pantry also receives 60 food boxes from TEFAP monthly. Five of these boxes go to veteran households that do not meet the age requirement of CSFP. The remaining boxes are distributed within the community.

Through data analysis during the community needs assessment and strategic planning processes, the KI BOIS CAF strategic plan committee and staff identified food access as a need. Two agency programs identified a specific need and partnered with the Veteran's Colony and the Eastern Oklahoma Food Bank to provide targeted food assistance. As a result, the Latimer County food bank was able to increase their total number of monthly food boxes and provide food for additional Colony households and mainstream households.

# Capacity Building

This Capacity Building Form provides details on agency capacity building funded by Community Services Block Grant (CSBG) and other funding sources. All Agency programs report on this form.

	2021	2022	2023	2022-2023
<b>B.2. Hours of Agency Capacity Building (e.g. training, planning, assessment):</b>	<b>Hours</b>	<b>Hours</b>	<b>Hours</b>	<b>Difference</b>
B.2a. Hours of Board Members in capacity building activities	177	729	639	-90
B.2b. Hours of Agency Staff in capacity building activities	12251.5	14033.25	13639	-394.25

	2021	2022	2023	2022-2023
<b>B.3. Volunteer Hours of Agency Capacity Building (e.g. program support, service delivery, fundraising): Hours</b>	<b>Number</b>	<b>Number</b>	<b>Number</b>	<b>Difference</b>
	Totals	Totals	Totals	
1. Total number of volunteer hours donated to the agency	48417	83089	90394	7305

Behavioral Health Case Manager	1	1	0	-1
Certified Drug Test Collection Staff	1	1	1	0

# Individual and Family National Performance Indicators

Individual and Family National Performance Indicators (NPIs) report outcomes that fall under National Goal 1: Individuals and families with low incomes are stable and achieve economic security. The indicators are the vehicle by which CSBG Eligible Entities measure and report the outcomes they have achieved for individuals and families. All Individual and Family NPIs are optional. CSBG Eligible Entities choose the NPIs on which they report based on the programs they operate and their outcomes.

## Employment Indicators

Employment (FNPI 1)	2021 II.) Number of Participants Achieving Outcome in Reporting Period	2022 II.) Number of Participants Achieving Outcome in Reporting Period	2023 III.) Number of Participants Achieving Outcome in Reporting Period	IV.) Numeric Increase or Decrease 2023 over 2022	V.) Percentage Increase or Decrease 2023 over 2022
FNPI 1a The number of unemployed <b>youth</b> who obtained employment to gain skills or income.				0	#DIV/0!
FNPI 1b The number of unemployed <b>adults</b> who obtained employment ( <b>up to a living wage</b> ).	33	22	14	-8	64%
FNPI 1c The number of unemployed <b>adults</b> who obtained and maintained employment for at least 90 days ( <b>up to a living wage</b> ).	33	22	42	20	191%
FNPI 1d The number of unemployed <b>adults</b> who obtained and maintained employment for at least 180 days ( <b>up to a living wage</b> ).	32	22	17	-5	77%
FNPI 1e The number of unemployed <b>adults</b> who obtained employment ( <b>with a living wage or higher</b> ).	0	3	4	1	133%
FNPI 1f The number of unemployed <b>adults</b> who obtained and maintained employment for at least 90 days ( <b>with a living wage or higher</b> ).	0	3	4	1	133%
FNPI 1g The number of unemployed <b>adults</b> who obtained and maintained employment for at least 180 days ( <b>with a living wage or higher</b> ).	0	3	3	0	100%

### Comments:

Programs contributing to these outcomes include the Developmental Disabilities (DD) Program, Supportive Services for Veteran Families (SSVF), Emergency Solutions Grant (ESG), and ESG-COVID Response.

## Education and Cognitive Development Indicators

Education and Cognitive Development (FNPI 2)	2021 I.) Number of Participants Achieving Outcome in Reporting Period	2022 II.) Number of Participants Achieving Outcome in Reporting Period	2023 III.) Number of Participants Achieving Outcome in Reporting Period	IV.) Numeric Increase or Decrease 2023 over 2022	V.) Percentage Increase or Decrease 2023 over 2022
FNPI 2a The number of <b>children</b> (0 to 5) who demonstrated improved emergent literacy skills.				0	#DIV/0!
FNPI 2b The number of <b>children</b> (0 to 5) who demonstrated skills for school readiness.				0	#DIV/0!
FNPI 2c The number of <b>children</b> and <b>youth</b> who demonstrated improved positive approaches toward learning, including improved attention skills. (auto total).	262	263	263	0	0.00%
FNPI 2c.1 Early Childhood Education (ages 0-5)	40	42	44	2	4.76%
FNPI 2c.2 1st grade-8th grade	222	221	219	-2	-0.90%
FNPI 2c.3 9th grade-12th grade				0	#DIV/0!
FNPI 2d The number of <b>children</b> and <b>youth</b> who are achieving at basic grade level (academic, social, and other school success skills). (auto total)	0	235	242	7	2.98%
FNPI 2d.1 Early Childhood Education (ages 0-5)	30	31	34	3	9.68%
FNPI 2d.2 1st grade-8th grade	250	204	208	4	1.96%
FNPI 2d.3 9th grade-12th grade				0	#DIV/0!
FNPI 2e The number of <b>parents/caregivers</b> who improved their home environments.				0	#DIV/0!
FNPI 2f The number of <b>adults</b> who demonstrated improved basic education.				0	#DIV/0!
FNPI 2g The number of <b>individuals</b> who obtained a high school diploma and/or obtained an equivalency certificate or diploma.				0	#DIV/0!
FNPI 2h The number of <b>individuals</b> who obtained a recognized credential, certificate, or degree relating to the achievement of educational or vocational skills.				0	#DIV/0!
FNPI 2i The number of <b>individuals</b> who obtained an Associate's degree.				0	#DIV/0!
FNPI 2j The number of <b>individuals</b> who obtained a Bachelor's degree.				0	#DIV/0!
<b>Comments:</b>					
Program contributing to these outcomes is the Foster Grandparent Program (FGP).					

## Income and Asset Building Indicators

Income and Asset Building (FNPI 3)	2021 I.) Number of Participants Achieving Outcome in Reporting Period	2022 II.) Number of Participants Achieving Outcome in Reporting Period	2023 III.) Number of Participants Achieving Outcome in Reporting Period	IV.) Numeric Increase or Decrease 2023 over 2022	V.) Percentage Increase or Decrease 2023 over 2022
FNPI 3a The number of individuals who achieved and maintained capacity to meet basic needs for <b>90 days</b> .	654	719	679	-40	-5.56%
FNPI 3b The number of individuals who achieved and maintained capacity to meet basic needs for <b>180 days</b> .	621	670	645	-25	-3.73%
FNPI 3c The number of individuals who opened a <b>savings account or IDA</b> .				0	#DIV/0!
FNPI 3d The number of individuals who <b>increased their savings</b> .				0	#DIV/0!
FNPI 3e The number of individuals who used their savings to <b>purchase an asset</b> .				0	#DIV/0!
FNPI 3e.1 Of the above, the number of individuals who <b>purchased a home</b> .				0	#DIV/0!
FNPI 3f The number of individuals who <b>improved their credit scores</b> .				0	#DIV/0!
FNPI 3g The number of individuals who <b>increased their net worth</b> .				0	#DIV/0!
FNPI 3h The number of individuals engaged with the Community Action Agency who report <b>improved financial well-being</b> .				0	#DIV/0!

### Comments:

Programs contributing to these outcomes include KI BOIS Domestic Violence Program (KDVP), Emergency Solutions Grant (ESG), ESG-COVID Response (CR), SSVF, and Permanent Supportive Housing (PSH). Numbers reported here decreased due to the exhausting CARES Act and ARPA funding.

## Housing Indicators

Housing (FNPI 4)	2021 I.) Number of Participants Achieving Outcome in Reporting Period	2022 II.) Number of Participants Achieving Outcome in Reporting Period	2023 III.) Number of Participants Achieving Outcome in Reporting Period	IV.) Numeric Increase or Decrease 2023 over 2022	V.) Percentage Increase or Decrease 2023 over 2022
FNPI 4a The number of households experiencing homelessness who obtained <u>safe temporary shelter</u> .	881	811	666	-145	-17.88%
FNPI 4b The number of households who obtained <u>safe and affordable housing</u> .	929	1244	545	-699	-56.19%
FNPI 4c The number of households who maintained safe and affordable housing for <u>90 days</u> .	948	1075	794	-281	-26.14%
FNPI 4d The number of households who maintained safe and affordable housing for <u>180 days</u> .	935	982	720	-262	-26.68%
FNPI 4e The number of households who <u>avoided eviction</u> .	891	900	587	-313	-34.78%
FNPI 4f The number of households who <u>avoided foreclosure</u> .	0	14	11	-3	-21.43%
FNPI 4g The number of households who <u>experienced improved health and safety</u> due to improvements within their home (e.g. reduction or elimination of lead, radon, carbon dioxide and/or fire hazards or electrical issues, etc).	0	0	47	47	#DIV/0!
FNPI 4h The number of households with <u>improved energy efficiency and/or energy burden reduction</u> in their homes.	33	25	48	23	92.00%

### Comments:

Programs contributing to these outcomes include SSVF, ESG, ESG-CR, KDVP, PSH, Emergency Services, Community Development Block Grant - COVID (CDBG-CV) Program, Weatherization (Wx), and CAPTAIN. CAPTAIN is the required outcomes management database the Agency uses to track services provided to and outcomes achieved by Agency customers/clients. Many programs enter data into CAPTAIN; including Rx for Oklahoma, all DD programs, Emergency Services, VITA, KDVP, the food banks, and KI BOIS Community Care. In 2023, numbers reported in FNPIs 4b, 4c, 4d, 4e, and 4f decreased due to the Agency exhausting COVID/ARPA funds.

## Health and Social/Behavioral Development Indicators

Health and Social/Behavioral Development (FNPI 5)	2021 I.) Number of Participants Achieving Outcome in Reporting Period	2022 II.) Number of Participants Achieving Outcome in Reporting Period	2023 III.) Number of Participants Achieving Outcome in Reporting Period	IV.) Numeric Increase or Decrease 2023 over 2022	V.) Percentage Increase or Decrease 2023 over 2022
FNPI 5a The number of individuals who demonstrated <b>increased nutrition skills</b> (e.g. cooking, shopping, and growing food).	140	142	168	26	18.31%
FNPI 5b The number of individuals who demonstrated <b>improved physical health</b> and well-being.	991	241	90	-151	-62.66%
FNPI 5c The number of individuals who demonstrated <b>improved mental and behavioral health and well-being</b> .	176	101	90	-11	-10.89%
FNPI 5d The number of individuals who <b>improved skills</b> related to the adult role of parents/caregivers.	140	148	168	20	13.51%
FNPI 5e The number of parents/caregivers who <b>demonstrated increased sensitivity and responsiveness</b> in their interactions with their children.				0	#DIV/0!
FNPI 5f The number of <b>seniors (65+)</b> who maintained an independent living situation.	942	1003	1002	-1	-0.10%
FNPI 5g The number of <b>individuals with disabilities</b> who maintained an independent living situation.	1298	1364	1082	-282	-20.67%
FNPI 5h The number of <b>individuals with chronic illness</b> who maintained an independent living situation.	217	141	99	-42	-29.79%
FNPI 5i The number of individuals with <b>no recidivating event</b> for six months.				0	#DIV/0!
FNPI 5i.1 Youth (ages 14-17)				0	#DIV/0!
FNPI 5i.2 Adults (ages 18+)				0	#DIV/0!

### Comments:

Programs contributing to these outcomes include ESG, ESG-CR, PSH, Emergency Services, Child and Adult Care Food Program (CACFP), FGP, and CAPTAIN. The reduction in NPI 5b is due to food pantry services no longer being reported under this outcome. In 2022, SSVF, ESG, ESG-CR, and PSH Programs started reporting on NPIs 5f, 5g and 5h in 2021 causing an increase. In 2023, CACFP served more daycare homes; SSVF, ESG, and ESG-CV reported fewer numbers in NPI 5g and 5h.

## Civic Engagement and Community Involvement Indicators

Civic Engagement and Community Involvement Indicators (FNPI 6)	2021 I.) Number of Participants Achieving Outcome in Reporting Period	2022 II.) Number of Participants Achieving Outcome in Reporting Period	2023 III.) Number of Participants Achieving Outcome in Reporting Period	IV.) Numeric Increase or Decrease 2023 over 2022	V.) Percentage Increase or Decrease 2023 over 2022
FNPI 6a The number of Community Action program participants who increased skills, knowledge, and abilities to enable them to work with Community Action to improve conditions in the community.	306	305	307	2	0.66%
FNPI 6a.1 Of the above, the number of Community Action program participants who <b>improved their leadership skills.</b>	55	51	43	-8	-15.69%
FNPI 6a.2 Of the above, the number of Community Action program participants who <b>improved their social networks.</b>	300	305	307	2	0.66%
FNPI 6a.3 Of the above, the number of Community Action program participants who gained other skills, knowledge and abilities to <b>enhance their ability to engage.</b>	300	305	307	2	0.66%

### Comments:

Programs contributing to these outcomes include FGP, RSVP, CAPTAIN, and the KI BOIS CAF Board.

## Outcomes Across Multiple Domains

Outcomes Across Multiple Domains (FNPI 7)	2021 I.) Number of Participants Achieving Outcome in Reporting Period	2022 II.) Number of Participants Achieving Outcome in Reporting Period	2023 III.) Number of Participants Achieving Outcome in Reporting Period	IV.) Numeric Increase or Decrease 2023 over 2022	V.) Percentage Increase or Decrease 2023 over 2022
FNPI 7a The number of individuals who achieved one or more outcomes as identified by the National Performance Indicators in various domains.	4490	4688	3140	-1548	-33.02%

### Comments:

Programs contributing to these outcomes include CACFP, ESG, ESG-CV, FGP, KDVP, PSH, RSVP, SSVF, Emergency Services, and CAPTAIN. In 2023, numbers were reduced due to the exhaustion of COVID/ARPA funds.

# Individual and Family Services

Individual and Family Services provides information on the work CSBG Eligible Entities did to help individuals and families achieve the outcomes listed in the National Performance Indicators. This standardized Individual and Family Services list aids in analysis of the relationship between people, services, and outcomes.

## Employment Services

	2021	2022	2023	Difference
<b>Employment Services (SRV 1)</b>	<b>Unduplicated Number of Individuals Served</b>	<b>Unduplicated Number of Individuals Served</b>	<b>Unduplicated Number of Individuals Served</b>	<b>Numeric Increase or Decrease 2023 over 2022</b>
<b>Skills Training and Opportunities for Experience (SRV 1a-f)</b>

### Comments:

KI BOIS Community Action staff worked in coordination with local county coalitions in Haskell, Latimer, LeFlore, Muskogee, and Sequoyah Counties to achieve the services in SRV 2k through back to school events. In 2023, KI BOIS CAF provided financial support for a youth fishing clinic. These numbers are reported under SRV 2m.

## Income and Asset Building Services

	2021	2022	2023	Difference
Income and Asset Building Services (SRV 3)	Unduplicated Number of Individuals Served	Unduplicated Number of Individuals Served	Unduplicated Number of Individuals Served	Numeric Increase or Decrease 2023 over 2022

<b>Weatherization Services (SRV 4r-t)</b>				
SRV 4r Independent-living Home Improvements (e.g. ramps, tub and shower grab bars, handicap accessible modifications, etc.)				0
SRV 4s Healthy Homes Services(e.g. reduction or elimination of lead, radon, carbon dioxide and/or fire hazards or electrical issues, etc.)			47	47
SRV 4t Energy Efficiency Improvements (e.g. insulation, air sealing, furnace repair, etc.)	33	25	48	23

**Comments:**

Programs providing services include ESG, ESG-CR, KDVP, PSH, Emergency Services, Weatherization (Wx), and CAPTAIN. In 2023, SRV 4c, 4d, and 4e were significantly decreased due to the Agency exhausting COVID/ARPA funds for rental assistance. SRV 4i and 4k increased due to more households requesting assistance. Also, the Agency increased its capacity to help more households by reducing agency financial assistance from 100% of client bills to 75%.

### Comments:

Programs providing services include Emergency Services, KI BOIS DV Program, Healthy Living Program (HLP), Sequoyah and LeFlore County Office, and CAPTAIN. The Hike for Whole Health reported under SRV 5q Exercise/Fitness had more people attend. SRV 5ii increased due to additional people attending the Sequoyah County feeding event. SRV-5jj increased due to the Latimer County office expanding distribution of food.

## Civic Engagement and Community Involvement Services

	2021	2022	2023	Difference
Civic Engagement and Community Involvement Services (SRV 6a)	Unduplicated Number of Individuals Served	Unduplicated Number of Individuals Served	Unduplicated Number of Individuals Served	Numeric Increase or Decrease 2023 over 2022

SRV 7o Mediation/Customer Advocacy Interventions	9	7	5	-2

### Comments:

Programs providing services include ESG, ESG-CR, FGP, RSVP, KDVP, PSH, SSVF, Emergency Services, and CAPTAIN. SRV 7a increased due to a significant increase in clients served by KDVP. SRV 7b increased due to reporting SSVF and ESG screened but not enrolled persons for the first time. Also contributing is the increase in KDVP clients. The increase in SRV 7m is due to SSVF receiving increased funds to assist veterans with legal services.

j. Other	191
k. Unknown/not reported	1,083

### Comments:

In 2021, the numbers were reduced as the Agency had exhausted much of its CARES Act funding for emergency services. In 2022, the Agency had increased numbers due to operation of the Community Development Block Grant - COVID Program and receiving additional CARES/ARPA funds. In 2023, the KI BOIS Domestic Violence Program served significantly more people.

## Logic Models

Logic models, as they are used in Results Oriented Management and Accountability (ROMA), are about program management and accountability. They are limited, either to specific needs that may include multiple services, outcomes and indicators, or to specific services that may have multiple outcomes and indicators. The first three logic models were included in the 2024 Community Services Block Grant (CSBG) application submitted to the Oklahoma Department of Commerce. The following three logic models include the outcomes of services provided during the program year 2023.

## 2024 ROMA LOGIC MODEL

**Organization:** KI BOIS Community Action Foundation, Inc.

**Program:** Dev. Disabled Independent Living/  Family  Community  Agency

Need	Service/ Activity	Outcome	Outcome Indicator	Results*	Measurement Tool	Data Source, Data Collection Procedures, Personnel (Where, How, Who)	Frequency of Data Collection and Reporting
Individuals with developmental disabilities need mainstream independent living.	92 Individuals with developmental disabilities will receive staff support to live in the community and maintain their independence outside an institutional setting.	Individuals with developmental disabilities will live in the community with staff support to maintain their independence outside an institutional setting.	92 individuals with a developmental disability will live in the community with staff support to maintain their independence outside an institutional setting for the PY 2024.		Developmentally Disabled (DD) Program assessment, daily living support records, CAPTAIN.	Developmentally Disabled (DD) Program records, updated at the time of service by Habilitation Training Staff. Service activities entered into CAPTAIN by DD Program Coordinator.	Data will be collected as activities are performed and entered into CAPTAIN no less than once per month. Data will be shared with the Program Director monthly and KI BOIS Planning Dept at the end of the contract year, CAPTAIN Administrator reviews data monthly, CSBG-Annual Report is reviewed annually.
<p><b>Mission:</b> KI BOIS Community Action Foundation, Incorporated is a community based organization dedicated to eliminating the causes of poverty and bettering the economic, mental, physical and social well being of all people, most importantly the disadvantaged, by utilizing effective coordination and administration of available resources and information.</p>					<p><b>Proxy Outcome:</b></p>

# **Resource Guide**

together for **OUR** future

resource guide

2023 – 2024

A publication of KI BOIS Community Action Foundation, Inc.

# What Is Community Action?

Community Action changes people's lives, embodies the spirit of hope, improves communities and makes America a better place to live. We care about the entire community and we are dedicated to helping people help themselves and each other.

KI BOIS Community Action Foundation, Inc. programs serves Haskell, Latimer, LeFlore, Muskogee, Pittsburg and Sequoyah Counties with programs such as transit, food and nutrition, developmental disabilities, ADvantage case management and Supportive Services for Veteran Families.

One of the major goals of Community Action is to form partnerships between staff, families and the community. When these partnerships are developed, staff, families and the community are working together to support the family's growth and development.

This resource book has been designed to give families information about places they can call when support is needed.

Contact your nearest KI BOIS Community Action office if you need assistance or additional information concerning:

- **Job Opportunities**
- **Educational Opportunities**
- **Parenting Skills**
- **Obtaining Medical Prescriptions**
- **Locating Services for Family Members with Special Needs**

# **Mission Statement**

**KI BOIS Community Action Foundation, Inc.  
is a community - based organization  
dedicated to eliminating the causes of  
poverty and bettering the economic,  
mental, physical and social well-being of all  
people – most importantly the  
disadvantaged - by utilizing effective  
coordination and administration of  
available resources and information.**
